Subject index*

A

Acebutolol

Comparative effects of oral acebutolol and propranolol at rest and during exercise in ischemic heart disease: double-blind placebo crossover study utilizing radionuclide ventriculography (Kaul et al.), 469

Acute myocardial infarction. *See* Myocardial infarction

Alcohol consumption

Evaluation of habitual excessive alcohol consumption on myocardial infarction risk in coronary disease patients (Deutscher, Rockette, and Krishnaswami), 988

Allergy(ic)

Allergic contact dermatitis secondary to transdermal nitroglycerin (Rosenfeld and White), 1061 (Brief comm.)

Alpha and beta-adrenoceptor antagonism

Rest and exercise hemodynamic effects of sequential alpha-1-adrenoceptor (trimazosin) and beta-adrenoceptor (propranolol) antagonism in essential hypertension (Nelson et al.), 124

American patients

Apical hypertrophic cardiomyopathy in American patients (Vacek et al.), 1501

Amiodarone

Atrial parasystole and amiodarone (Santinelli et al.), 1029 (Brief comm.)

Chronic administration of amiodarone and thyroid function: a follow-up study (Sanmarti et al.), 1262

Electrophysiologic effects of amiodarone: experimental and clinical observation relative to serum and tissue drug concentrations (Ikeda et al.), 890

Anaphylactic shock

Transient ST segment elevation during anaphylactic shock (Antonelli, Koltun, and Barzilay), 1052 (Brief comm.)

Anemia, sickle cell. *See* Sickle cell anemia

Aneurysm(s)

M-mode echographic features of ruptured sinus of Valsalva aneurysms (Gherasim et al.), 183 (Brief comm.)

Multiple coronary-to-pulmonary artery fistulas with progressive aneurysmal dilatation (Egashira et al.), 1038 (Brief comm.)

Ruptured aneurysm of mitral annulus in bacterial endocarditis (Fein et al.), 171 (Brief comm.)

Angina pectoris. *See also* Prinzmetal's angina

Angina pectoris and coronary bypass surgery: patterns of prevalence and recurrence in 1305 consecutive patients followed up to 11 years (Johnson, Kayser, and Pedraza), 1190

Atenolol, nadolol, and pindolol in angina pectoris on effort: effect of pharmacokinetics (Kostis et al.), 1131

Coronary angiography during exercise-induced angina with ECG changes (Matsuda et al.), 959

Effects of presence or absence of preceding angina pectoris on left ventricular function after acute myocardial infarction (Matsuda et al.), 955

Failure of transdermal nitroglycerin to improve chronic stable angina: a randomized, placebo-controlled, double-blind, double crossover trial (Crean et al.), 1494

Long-term experience with nadolol in treatment of hypertension and angina pectoris (Alexander et al.), 1136

Occurrence of angiographically detected intracoronary thrombus in patients with unstable angina pectoris (Zack et al.), 1408

Prostaglandin E₁ infusion in unstable angina: effects on anginal frequency and cardiac function (Siegel et al.), 863

Sinus node dysfunction during coronary vasospastic angina (Bashour et al.), 1056 (Brief comm.)

Thallium-201 myocardial scintigraphy and left ventricular function at rest in patients with rest angina pectoris (Hakki et al.), 326

Angina pectoris—Cont'd

Transient changes in left ventricular mechanics during attacks of Prinzmetal angina: A two-dimensional echocardiographic study (Distante et al.), 440

Angina, variant. *See also* Variant angina

Concomitant calcium antagonist plus isosorbide dinitrate therapy for markedly active variant angina (Winniford et al.), 1269

Hyperventilation-induced variant angina with ventricular tachycardia (Hisano et al.), 423 (Brief comm.)

Reflex heart rate and blood pressure changes during ST segment elevation in patients with variant angina (Araki et al.), 1273

Transient U wave inversion during variant angina (Matsuguchi et al.), 899

Angina, vasospastic

Abnormal heart rate response to exercise in vasospastic angina: pathophysiologic mechanism in provocation of coronary spasm (Sato et al.), 316

Angiograms, Angiography

Assessment of quantitative indices of arterial stenosis derived from intravenous digital subtraction angiography (Peck et al.), 591

Coronary angiography during exercise-induced angina with ECG changes (Matsuda et al.), 959

Evaluation of intracardiac masses by digital subtraction angiography (Yiannikas, Zaidi, and Moodie), 600 (Brief comm.)

Limitations of quantitative phase analysis of radionuclide angiograms for detecting coronary artery disease in patients with impaired left ventricular function (Schwaiger et al.), 942

Right ventricular function evaluated by radionuclide angiography in acute myocardial infarction (Hirshowitz, Lakier, and Goldstein), 949

Angioplasty, laser

Potential complications of coronary laser angioplasty (Lee et al.), 1577 (Brief comm.)

Angiotensin II

Estimation of angiotensin II receptor activity in chronic congestive heart failure (Cody et al.), 81

Antiarrhythmic(s)

Beta-adrenoceptor blockade: electrophysiology and antiarrhythmic mechanisms (Sung, Tai, and Svinarich), 1115

Anticoagulant therapy

The role of anticoagulant therapy in acute myocardial infarction (Goldberg, Gore, and Dalen), 1387

Aortic regurgitation. *See also* Regurgitation

Maximal exercise in children with aortic regurgitation: an adjunct to noninvasive assessment of disease severity (Goforth et al.), 1306

Apnea

Arrhythmogenesis during sleep-induced apnea (Kawakami et al.), 1591 (Letter)

Apolipoprotein(s)

Black-white differences in plasma levels of apolipoproteins: the Evans County Heart Study (Heiss et al.), 807

Arrhythmias, ventricular

Contrasting incidence, inducibility, and transmural sites of origin of ventricular arrhythmias during acute coronary occlusion and reperfusion (Agarwal et al.), 879

Effect of propafenone in patients with stable ventricular arrhythmias (de Soya et al.), 285

Mechanisms of ventricular arrhythmias in multivessel coronary disease: the effects of collateral zone ischemia (Kabell et al.), 447

Mexiletine for recurring ventricular arrhythmias: assessment by long-term electrocardiographic recordings and sequential electrophysiologic studies (Flaker et al.), 490

Prognostic implications of complicated ventricular arrhythmias early after hospital discharge in acute myocardial infarction: a serial ambulatory electrocardiography study (Olson et al.), 1221

Arrhythmogenesis

Arrhythmogenesis during sleep-induced apnea (Kawakami et al.), 1591 (Letter)

*July, pp. 1-236; August, pp. 237-430; September, Part 1, pp. 431-632; September, Part 2, pp. 633-862; October, Part 1, pp. 863-1068; October, Part 2, pp. 1069-1182; November, pp. 1183-1398; December, pp. 1399-1626.

Arrhythmogenic RV dysplasia

16-year follow-up of arrhythmogenic right ventricular dysplasia (Higuchi et al.), 1363 (Brief comm.)

Arterial compliance

Impaired systemic arterial compliance in borderline hypertension (Ventura et al.), 132

Arterial stenosis. See Stenosis**Artery(ies) See also specific artery**

Coronary arterial revascularization in an adult with congenitally corrected transposition (Jennings et al.), 598 (Brief comm.)

Multiple coronary-to-pulmonary artery fistulas with progressive aneurysmal dilatation (Egashira et al.), 1038 (Brief comm.)

Origin of left anterior descending coronary artery from left mammary artery (Robicsek), 1377 (Brief comm.)

The septal arteries in differential diagnosis of constrictive pericarditis (Soto et al.), 332

Arteries, TGA. See Transposition of great arteries**Atenolol**

Atenolol, nadolol, and pindolol in angina pectoris on effort: effect of pharmacokinetics (Kostis et al.), 1131

Atherosclerosis, Atherosclerotic

Atherosclerosis: progression, regression, and resolution (Malinow), 1523

Comparison at necropsy by age group of amount and distribution of narrowing by atherosclerotic plaque in 2995 five-mm long segments of 240 major coronary arteries in 60 men aged 31 to 70 years with sudden coronary death (Warnes and Roberts), 431

ATPase (adenosine triphosphatase)

Effects of chronic digoxin treatment on cardiac function, electrolytes, and sarcolemmal ATPase in the canine failing heart due to chronic mitral regurgitation (Prasad, O'Neil, and Bharadwaj), 1487

Atrial

Absent right pulmonary artery with atrial septal defect (Kumar et al.), 1037 (Brief comm.)

Atrial parasystole and amiodarone (Santini et al.), 1029 (Brief comm.)

Effect of electrode position on atrial sensing for physiologically responsive cardiac pacemakers (Timmis et al.), 909

Transient right atrial thrombus resulting in pulmonary embolism detected by two-dimensional echocardiography (Malloy et al.), 1047 (Brief comm.)

Atrial fibrillation

Effects of nadolol on the spontaneous and exercise-provoked heart rate of patients with chronic atrial fibrillation receiving stable dosages of digoxin (DiBianco et al.), 1121

Atrioventricular

Advanced early and late atrioventricular block in acute inferior wall myocardial infarction (Sclarovsky et al.), 19

AV block induced by drinking cold liquids (Gelman and Pepine), 1054 (Brief comm.)

Clinical effects of digoxin on sinus node and atrioventricular node function after pharmacologic autonomic blockade (Alboni et al.), 1255

Ethmozin. II. Effects of intravenous drug administration on atrioventricular nodal reentrant tachycardia (Chazov, Rosenshtraukh, and Shugushev), 483

Familial clustering of atrioventricular canal defects (Tennant et al.), 175 (Brief comm.)

Atrium

Myocarditis presenting with "silent" atrium and left atrial thrombus (Wohlgeleit et al.), 1557 (Brief comm.)

Pseudoposterior pericardial effusion due to enlarged left atrium (Chen et al.), 1044 (Brief comm.)

Automatic cardioverter/defibrillator

Practical aspects of automatic cardioverter/defibrillator implantation (Winkle et al.), 1335

Autonomic blockade. See Blockade**B****Bacterial endocarditis**

Echographic recognition of perivalvular infection complicating aortic bacterial endocarditis (Come and Riley), 166 (Brief comm.)

Bacterial endocarditis—Cont'd

Ruptured aneurysm of mitral annulus in bacterial endocarditis (Fein et al.), 171 (Brief comm.)

Balloon counterpulsation

Delayed abrasion perforation of two intra-aortic balloons (Mayerhofer, Billhardt, and Codini), 1361 (Brief comm.)

Regional and global left ventricular function during intra-aortic balloon counterpulsation in patients with acute myocardial infarction shock (Weiss et al.), 249

Balloon occlusion

Radionuclide-guided balloon occlusion pulmonary cineangiography: an adjunct to pulmonary arteriography (Ferris et al.), 539

Banding

High takeoff of the left main coronary artery from the pulmonary trunk: potentially fatal combination with pulmonary trunk banding (Steussy et al.), 619 (Brief comm.)

Bepridil

Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Beta-adrenergic blockade

Beta-adrenergic blockade by nadolol in control of ventricular tachyarrhythmias (Nademanee et al.), 1109

Effects of beta-adrenergic inhibition on scar formation after myocardial infarction (Ravindranathan et al.), 25

Influence of beta-adrenergic blockade on the hemodynamic effects of physical training in patients with ischemic heart disease (Vanhees, Fagard, and Amery), 270

Treatment of resting tremor by beta-adrenergic blockade (Foster et al.), 1173

Beta-adrenoceptor blockade

Beta-adrenoceptor blockade: electrophysiology and antiarrhythmic mechanisms (Sung, Tai, and Svinarich), 1115

Beta blockers

Pharmacologic differences between beta blockers (Wood), 1070

Beta-blocking therapy in atrial and ventricular tachyarrhythmias: experience with nadolol (Coumel, Escoubet, and Attuel), 1098

Beta Blocker Heart Attack Trial

Coronary heart disease mortality/morbidity and risk in blacks. I: Clinical manifestations and diagnostic criteria: the experience with the Beta Blocker Heart Attack Trial (Haywood), 787

Beta-hemolytic streptococcus endocarditis

Group A beta-hemolytic streptococcus endocarditis (Ramirez, Naraqi, and McCulley), 1383 (Brief comm.)

Beta-synthase deficiency

Postoperative thromboemboli in cystathionine beta-synthase deficiency (Jackson et al.), 627 (Brief comm.)

Bethanidine sulfate

Acute electrophysiologic effects of bethanidine sulfate in patients with ventricular tachycardia or fibrillation (DiMarco et al.), 1244

Birmingham Trial

The Birmingham Trial of permanent pacing in patients with intraventricular conduction disorders after acute myocardial infarction (Watson et al.), 496

Biventricular involvement

Evaluation of biventricular involvement in hypotensive patients with transmural inferior infarction by two-dimensional echocardiography (Jugdutt et al.), 1417

Björk-Shiley valve

Detection of thrombosed aortic Björk-Shiley valve by two-dimensional echocardiography (Kinney et al.), 1042 (Brief comm.)

Thrombectomy for obstructed Björk-Shiley mitral valve prosthesis (Yakirevich et al.), 1582 (Brief comm.)

Black(s)

Black-white comparison of indices of coronary heart disease and myocardial infarction in the stepped-care cohort of the Hypertension Detection and Follow-up Program (Langford et al.), 797

Black-white contrasts as determinants of cardiovascular risk in childhood: precursors of coronary artery and primary hypertensive diseases (Berenson et al.), 672

Black-white differences in plasma levels of apolipoproteins: the Evans County Heart Study (Heiss et al.), 807

Cigarette smoking and coronary heart disease in blacks: comparison to whites in a prospective study (Garfinkel), 802

Black(s)—Cont'd

- Coronary artery disease in blacks: risk factors (Curry, Oliver, and Mumtaz), 653
- Coronary heart disease and coronary disease risk factors in black populations in underdeveloped countries: the case for primordial prevention (Watkins), 850
- Coronary heart disease in black Americans: suggestions for research on psychosocial factors (James), 833
- Coronary heart disease in young black and white males in New Orleans: community pathology study (Strong et al.), 747
- Coronary heart disease mortality in United States blacks, 1940-1978: trends and unanswered questions (Gillum and Liu), 728
- Coronary heart disease mortality/morbidity and risk in blacks. I: Clinical manifestations and diagnostic criteria: the experience with the Beta Blocker Heart Attack Trial (Haywood), 787
- Coronary heart disease mortality/morbidity and risk in blacks. II: Access to medical care (Haywood), 794
- Coronary heart disease mortality rates in United States blacks, 1968-1978: interstate variation (Leaverton, Feinleib, and Thom), 732
- Coronary heart disease risk factor trends in blacks between the first and second National Health and Nutrition Examination Surveys, United States, 1971-1980 (Rowland and Fulwood), 771
- Epidemiology of coronary heart disease in black populations: methodologic proposals (Watkins), 635
- High-density lipoprotein cholesterol in blacks and whites: potential ramifications for coronary heart disease (Glueck et al.), 815
- Incidence of coronary heart disease in blacks in Charleston, South Carolina (Keil et al.), 779
- Ischemic heart disease risk factors and 20-year mortality in middle-age Evans County black males (Tyroler et al.), 738
- Issues in the natural history and treatment of coronary heart disease in black populations: medical management (Haywood), 683
- Issues in the natural history and treatment of coronary heart disease in black populations: surgical treatment (Oberman and Cutter), 688
- Overview of risk factors for coronary heart disease in black populations (Tyroler), 658
- Prevalence of diabetes/hyperglycemia and associated cardiovascular risk factors in blacks and whites: Chicago Heart Association Detection Project in Industry (Cooper et al.), 827
- Responses of black and white males to the special intervention program of the Multiple Risk Factor Intervention Trial (Connett and Stamler), 839
- Results of myocardial revascularization in black males (Sterling et al.), 695
- Social and psychologic factors in the etiology of coronary heart disease in black populations: an exploration of research needs (Kasl), 660
- Socioeconomic influences on coronary heart disease in black populations (James), 669
- Total and cardiovascular mortality in relation to cigarette smoking, serum cholesterol concentration, and diastolic blood pressure among black and white males followed up for 5 years (Neaton et al.), 759

Blalock-Taussig shunt

- Pulmonary and subclavian steal phenomenon following modified Blalock-Taussig shunt (Agarwal et al.), 1567 (Brief comm.)

Block

- Advanced early and late atrioventricular block in acute inferior wall myocardial infarction (Sclarovsky et al.), 19
- AV block induced by drinking cold liquids (Gelman and Pepine), 1054 (Brief comm.)
- Electrocardiographic diagnosis of left ventricular hypertrophy in the presence of left bundle branch block (Klein et al.), 502
- Exercise-induced left bundle branch block: resolution after coronary angioplasty (Puleo et al.), 1373 (Brief comm.)

Blockade

- Beta-adrenoceptor blockade: electrophysiology and antiarrhythmic mechanisms (Sung, Tai, and Svinarich), 1115
- Clinical effects of digoxin on sinus node and atrioventricular node function after pharmacologic autonomic blockade (Alboni et al.), 1255

Blockade, beta-adrenergic. See Beta-adrenergic blockade

Blood flow

- Nifedipine in congestive heart failure: effects on resting and exercise hemodynamics and regional blood flow (Leier et al.), 1461

Blood pressure

- Reflex heart rate and blood pressure changes during ST segment elevation in patients with variant angina (Araki et al.), 1273
- 24-hour blood pressure profile and blood pressure variability in untreated hypertension and during antihypertensive treatment by once-a-day nadolol (Mancia et al.), 1078

Blood pressure, diastolic. See Diastolic blood pressure

Body surface isopotential maps

- Body surface isopotential maps in old anterior myocardial infarction undetectable by 12-lead electrocardiograms (Hirai et al.), 975

Bookshelf

- Bookshelf, 194, 430, 1068

Bradycardia

- Bradycardia and asystole requiring permanent pacemaker in Guillain-Barré syndrome (Narayan, Huang, and Mathew), 426 (Brief comm.)

Bundle branch block

- Electrocardiographic diagnosis of left ventricular hypertrophy in the presence of left bundle branch block (Klein et al.), 502

Bypass graft(s)

- The chronic coronary flow reserve provided by saphenous vein bypass grafts as determined by digital coronary radiography (Bates et al.), 462

C

Calcium

- Concomitant calcium antagonist plus isosorbide dinitrate therapy for markedly active variant angina (Winniford et al.), 1269
- Disparate unloading efficacy of the calcium channel blockers, verapamil and nifedipine, on the failing hypertensive left ventricle (Guazzi et al.), 116
- Magnesium: Nature's physiologic calcium blocker (Iseri and French), 188

Canal defects

- Familial clustering of atrioventricular canal defects (Tennant et al.), 175 (Brief comm.)

Carcinoma

- Right ventricular metastasis of cervical squamous cell carcinoma (Itoh et al.), 1369 (Brief comm.)

Cardiac

- Cardiac metabolism monitored by fiberoptic laser fluorimeter (Renault et al.), 428 (Brief comm.)
- Cardiac size and function in children with sickle cell anemia (Balfour et al.), 345
- Diagnostic impact of thallium scintigraphy and cardiac fluoroscopy when the exercise ECG is strongly positive (Chaitman et al.), 260
- Neonatal cyanosis caused by cardiac rhabdomyomas (Lababidi et al.), 624 (Brief comm.)
- Nuclear magnetic resonance: theory and review of cardiac applications (Osbakken and Briggs), 574
- Penetrating cardiac injury evaluated by two-dimensional echocardiography (Choo et al.), 417 (Brief comm.)
- Cardiac death, sudden. See also Sudden cardiac death**
- Long-term survival after prehospital sudden cardiac death (Tresch et al.), 1

Cardiac function

- Cardiac size and function in children with sickle cell anemia (Balfour et al.), 345
- Effects of chronic digoxin treatment on cardiac function, electrolytes, and sarcolemmal ATPase in the canine failing heart due to chronic mitral regurgitation (Prasad, O'Neil, and Bharadwaj), 1487
- Prostaglandin E₁ infusion in unstable angina: effects on anginal frequency and cardiac function (Siegel et al.), 863

Cardiac pacing. See Pacing, cardiac

Cardiokymography

- Mechanism of cardiokymography (Geselowitz), 1590 (Letter)

Cardiomyopathy

Myocarditis and cardiomyopathy (Kereiakes and Parmley), 1318

Cardiomyopathy, hypertrophic. *See also* Hypertrophic cardiomyopathy

Apical hypertrophic cardiomyopathy in American patients (Vacek et al.), 1501

Cardiopathica fantastica

Cardiopathica fantastica (Pitt and Pitt), 137

Cardiotonic drug(s)

Myocardial metabolic and hemodynamic effects of intravenous MDL 17,043, a new cardiotonic drug, in patients with chronic severe heart failure (Amin et al.), 1285

Cardiovascular

Black-white contrasts as determinants of cardiovascular risk in childhood: precursors of coronary artery and primary hypertensive diseases (Berenson et al.), 672

Cardiovascular response to chronic physical exertion and exercise training: an echocardiographic review (Graettinger), 1014

Prevalence of diabetes/hyperglycemia and associated cardiovascular risk factors in blacks and whites: Chicago Heart Association Detection Project in Industry (Cooper et al.), 827

Total and cardiovascular mortality in relation to cigarette smoking, serum cholesterol concentration, and diastolic blood pressure among black and white males followed up for 5 years (Neaton et al.), 759

Cardiovascular drugs. *See* Transdermal delivery of cardiovascular drugs**Cardioverter/defibrillator**

Practical aspects of automatic cardioverter/defibrillator implantation (Winkle et al.), 1335

Catheter

Evaluation of effects of catheter sampling for the study of platelet behavior in the pulmonary and coronary circulation (Bugiardini et al.), 255

Percutaneous removal of intracardiac catheter fragment: unique internal jugular venous approach (Glatter, Scott, and Early), 408 (Brief comm.)

Charleston, S.C., CHD in

Incidence of coronary heart disease in blacks in Charleston, South Carolina (Keil et al.), 779

Chest pain

Chest pain following PTCA (Sanders), 1585 (Letter); Reply (Gruentzig), 1586

Unimproved chest pain in patients with minimal or no coronary disease: a behavioral phenomenon (Wielgosz et al.), 67

Chest x-ray

Usefulness of chest x-ray for predicting abnormal left ventricular function after acute myocardial infarction (Madsen et al.), 1431

Chicago Heart Association Detection Project

Prevalence of diabetes/hyperglycemia and associated cardiovascular risk factors in blacks and whites: Chicago Heart Association Detection Project in Industry (Cooper et al.), 827

Children

Black-white contrasts as determinants of cardiovascular risk in childhood: precursors of coronary artery and primary hypertensive diseases (Berenson et al.), 672

Maximal exercise in children with aortic regurgitation: an adjunct to noninvasive assessment of disease severity (Goforth et al.), 1306

Secondary hypertrophic cardiomyopathy in infancy and childhood (Alday and Moreyra), 996

Cholesterol

Determinants of high-density lipoprotein cholesterol in blacks and whites: the second National Health and Nutrition Examination Survey (Gartside, Khoury, and Glueck), 641

High-density lipoprotein cholesterol in blacks and whites: potential ramifications for coronary heart disease (Glueck et al.), 815

Chordae tendineae

Transesophageal 2-D echocardiographic feature of flail mitral leaflet due to ruptured chordae tendineae (Schlüter, Kremer, and Hanrath), 609 (Brief comm.)

Two-dimensional echocardiographic documentation of accessory chordae tendineae accompanying isolated anterior mitral cleft (Yamamoto et al.), 1554 (Brief comm.)

Cigarette smoking

Cigarette smoking and coronary heart disease in blacks: comparison to whites in a prospective study (Garfinkel), 802

Total and cardiovascular mortality in relation to cigarette smoking, serum cholesterol concentration, and diastolic blood pressure among black and white males followed up for 5 years (Neaton et al.), 759

Cimetidine

Cimetidine-induced decrease in lidocaine metabolism (Bauer et al.), 413 (Brief comm.)

Comparison of kinetic interactions of nadolol and propranolol with cimetidine (Duchin et al.), 1084

Cineangiography, radionuclide. *See* Radionuclide cineangiography**Cirrhosis, cirrhotic**

Effects of nadolol treatment on renal and hepatic hemodynamics and function in cirrhotic patients with portal hypertension (Gatta et al.), 1167

Click, systolic

Adhesive pericarditis with unusual systolic click (Linsenmeyer et al.), 1062 (Brief comm.)

Closing address

Chairman's closing address—Symposium on The increasing value of beta blockers: Focus on nadolol (Kaplan), 1182

Commissurotomy

Left ventricular dyskinesia following closed mitral commissurotomy (Nigri et al.), 1550 (Brief comm.)

Computed tomography (CT)

Imaging of acute myocardial infarction in man with contrast-enhanced computed transmission tomography (Kramer et al.), 1514

Pulmonary density distribution in experimental and clinical cardiogenic pulmonary edema evaluated by computed transmission tomography (Slutsky et al.), 401

Conduction

Intraventricular conduction defects in acute myocardial infarction: incidence, prognosis, and therapy (Klein, Vera, and Mason), 1007

The Birmingham Trial of permanent pacing in patients with intraventricular conduction disorders after acute myocardial infarction (Watson et al.), 496

Ventriculoatrial conduction in swine during cardiac pacing: animal model for retrograde conduction (Bowman and Hughes), 337

Congenital heart disease

Banding of patent ductus arteriosus for palliation of cyanotic congenital heart disease (Earle, Sade, and Riopel), 173 (Brief comm.)

Pulmonary hemodynamics and maintenance of palliation following polytetrafluoroethylene shunts for cyanotic congenital heart disease (Bove et al.), 366

Congestive heart failure

Comparative effects of propranolol and nadolol on renal blood flow in normal rats and rats with congestive heart failure (Brenner et al.), 1144

Estimation of angiotensin II receptor activity in chronic congestive heart failure (Cody et al.), 81

Increased congestive heart failure after myocardial infarction of modest extent in patients with diabetes mellitus (Jaffe et al.), 31

Marked increase of plasma 3,4-dihydroxyphenylacetic acid in congestive heart failure (Mercuro et al.), 1588 (Letter to the Editor)

Nifedipine in congestive heart failure: effects on resting and exercise hemodynamics and regional blood flow (Leier et al.), 1461

Prolonged hemodynamic effect of furosemide in congestive heart failure (Brater, Chennavasin, and Dehmer), 1031 (Brief comm.)

Constrictive pericardial disease

Right ventricular myocardial contusion simulating constrictive pericardial disease (Ruder et al.), 1353 (Brief comm.)

Constrictive pericarditis. *See* Pericarditis**Contractility**

Decreased contractility and compliance of the left ventricle as complications of thermal trauma (Adams, Baxter, and Izenberg), 1477

Contrast media

Direct pharmacologic and osmolar effects of contrast media on the mechanics of heart muscle isolated from cats (Chuck et al.), 97

Contrast media—Cont'd

- Imaging of acute myocardial infarction in man with contrast-enhanced computed transmission tomography (Kramer et al.), 1514

Coronary

- A new approach to quantitation of exercise thallium-201 scintigraphy before and after an intervention: application to define the impact of coronary angioplasty on regional myocardial perfusion (Lim et al.), 917
- Abnormal heart rate response to exercise in vasospastic angina: pathophysiologic mechanism in provocation of coronary spasm (Sato et al.), 316
- Contrasting incidence, inducibility, and transmural sites of origin of ventricular arrhythmias during acute coronary occlusion and reperfusion (Agarwal et al.), 879
- Coronary lesions in neurofibromatosis associated with vasospasm and myocardial infarction (Halper and Factor), 420 (Brief comm.)
- Evaluation of effects of catheter sampling for the study of platelet behavior in the pulmonary and coronary circulation (Bugiardini et al.), 255
- Exercise-induced left bundle branch block: resolution after coronary angioplasty (Puleo et al.), 1373 (Brief comm.)
- Hemodynamic determinants of coronary constriction in human myocardial bridges (Carvalho et al.), 73
- Mechanisms of ventricular arrhythmias in multivessel coronary disease: the effects of collateral zone ischemia (Kabell et al.), 447
- Myocardial bridge associated with pacing-induced coronary spasm (Grover and John Mancini), 1540 (Brief comm.)
- Perforation of muscle shelf of right coronary cusp causing acute regurgitation of porcine mitral xenograft (Valente et al.), 180 (Brief comm.)
- Relationship of specific coronary lesions and regional left ventricular dysfunction for prognosis in survivors of sudden cardiac death (Vlay et al.), 1212
- Scintigraphic determination of ventricular function and coronary perfusion in long-distance runners (Osbakken and Locko), 296
- The chronic coronary flow reserve provided by saphenous vein bypass grafts as determined by digital coronary radiography (Bates et al.), 462
- Unimproved chest pain in patients with minimal or no coronary disease: a behavioral phenomenon (Wielgosz et al.), 67
- Unroofed coronary sinus demonstrated by two-dimensional echocardiography (Hamada et al.), 1558 (Brief comm.)

Coronary artery(ies)

- Anomalous origin of the left anterior descending coronary artery from the pulmonary artery (Tamer et al.), 341
- Comparison at necropsy by age group of amount and distribution of narrowing by atherosclerotic plaque in 2995 five-mm long segments of 240 major coronary arteries in 60 men aged 31 to 70 years with sudden coronary death (Wames and Roberts), 431
- High takeoff of the left main coronary artery from the pulmonary trunk: potentially fatal combination with pulmonary trunk banding (Steussy et al.), 619 (Brief comm.)

Coronary artery bypass surgery

- Angina pectoris and coronary bypass surgery: patterns of prevalence and recurrence in 1305 consecutive patients followed up to 11 years (Johnson, Kayser, and Pedraza), 1190
- Symptomatic coronary and cerebral steal after internal mammary-coronary bypass (Bashour et al.), 177 (Brief communication)

Coronary artery disease

- Black-white contrasts as determinants of cardiovascular risk in childhood: precursors of coronary artery and primary hypertensive diseases (Berenson et al.), 672
- Coronary artery disease in blacks: risk factors (Curry, Oliver, and Mumtaz), 653
- Detection and management of coronary artery disease in the asymptomatic population (Cohn, Brown, and Cohn), 1064
- Directional variability in the R wave response during serial exercise testing in patients with coronary artery disease (Voyles, Smith, and Abrams), 983
- Effectiveness of a low lipid diet and exercise in management of coronary artery disease (Ribeiro et al.), 1183
- Evaluation of habitual excessive alcohol consumption on myocardial infarction risk in coronary disease patients (Deutscher, Rockette, and Krishnaswami), 988

Coronary artery disease—Cont'd

- Limitations of quantitative phase analysis of radionuclide angiograms for detecting coronary artery disease in patients with impaired left ventricular function (Schwaiger et al.), 942
- Mental arithmetic stress testing in patients with coronary artery disease (Specchia et al.), 56
- Predicting oxygen uptake from treadmill testing in normal subjects and coronary artery disease patients (Roberts et al.), 1454
- Progression of coronary artery disease (Bergeron and Björk), 1585 (Letter); Reply (Haft), 1585

- Coronary laser angioplasty**
- Potential complications of coronary laser angioplasty (Lee et al.), 1577 (Brief comm.)
- Cyanosis**
- Neonatal cyanosis caused by cardiac rhabdomyomas (Lababidi et al.), 624 (Brief comm.)
- Cystathionine deficiency**
- Postoperative thromboemboli in cystathionine beta-synthase deficiency (Jackson et al.), 627 (Brief comm.)

D

Death, sudden coronary

Comparison at necropsy by age group of amount and distribution of narrowing by atherosclerotic plaque in 2995 five-mm long segments of 240 major coronary arteries in 60 men aged 31 to 70 years with sudden coronary death (Warnes and Roberts), 431

Long-term survival after prehospital sudden cardiac death (Tresch et al.), 1

Dermatitis, contact

Allergic contact dermatitis secondary to transdermal nitroglycerin (Rosenfeld and White), 1061 (Brief comm.)

Diabetes

Increased congestive heart failure after myocardial infarction of modest extent in patients with diabetes mellitus (Jaffe et al.), 31

Prevalence of diabetes/hyperglycemia and associated cardiovascular risk factors in blacks and whites: Chicago Heart Association Detection Project in Industry (Cooper et al.), 827

Diagonal Rule

The Diagonal Rule: a useful mnemonic in ECG interpretation (Sibbitt), 1591 (Letter)

Diastolic

Diastolic fluttering of interventricular septum in left atrial sarcoma (Yoshimura et al.), 1050 (Brief comm.)

Diastolic blood pressure

Total and cardiovascular mortality in relation to cigarette smoking, serum cholesterol concentration, and diastolic blood pressure among black and white males followed up for 5 years (Neaton et al.), 759

Diazepam

Beneficial effect of nadolol on anxiety-induced disturbances of performance in musicians: a comparison with diazepam and placebo (James and Savage), 1150

Diet

Effectiveness of a low lipid diet and exercise in management of coronary artery disease (Ribeiro et al.), 1183

Digital subtraction angiography

Assessment of quantitative indices of arterial stenosis derived from intravenous digital subtraction angiography (Peck et al.), 591

Evaluation of intracardiac masses by digital subtraction angiography (Yiannikas, Zaidi, and Moodie) 600 (Brief comm.)

Digoxin

Clinical effects of digoxin on sinus node and atrioventricular node function after pharmacologic autonomic blockade (Alboni et al.), 1255

Effects of chronic digoxin treatment on cardiac function, electrolytes, and sarcolemmal ATPase in the canine failing heart due to chronic mitral regurgitation (Prasad, O'Neil, and Bharadwaj), 1487

Effects of nadolol on the spontaneous and exercise-provoked heart rate of patients with chronic atrial fibrillation receiving stable dosages of digoxin (DiBianco et al.), 1121

Verapamil-digoxin interaction (Zatuchni), 412 (Brief comm.)

Dilatation

Multiple coronary-to-pulmonary artery fistulas with progressive aneurysmal dilatation (Egashira et al.), 1038 (Brief comm.)

Dilazep

Effects of dilazep on coronary and systemic hemodynamics in humans (Marzilli et al.), 276

Disc variance

Phonocardiographic findings in disc variance of a Beall mitral prosthesis (Evangelista-Masip et al.), 178 (Brief comm.)

Diuretic(s)

Veterans Administration cooperative study on nadolol as monotherapy and in combination with a diuretic (Freis), 1087

Doppler

Calculation of pulsed Doppler left ventricular outflow tract regurgitant index for grading severity of aortic regurgitation (Veyrat et al.), 507

Detection of posterior mediastinal lymphoma by pulsed Doppler echocardiography (Kinney et al.), 1365 (Brief comm.)

Differential diagnosis of various causes of systolic-diastolic murmurs using pulsed Doppler echocardiography (Vargas-Barron et al.), 1507

Doppler—Cont'd

Evaluation of tricuspid regurgitation by blood flow pattern in the hepatic vein using pulsed Doppler technique (Sakai et al.), 516

Double-chambered RV

Two-dimensional echocardiographic findings in double-chambered right ventricle (Shimada et al.), 1059 (Brief comm.)

Ductus arteriosus, patent

Banding of patent ductus arteriosus for palliation of cyanotic congenital heart disease (Earle, Sade, and Riopel), 173 (Brief comm.)

Dura mater valve

Dura mater valve endocarditis related to retained fragment of postoperative temporary epicardial pacemaker lead (Mansur et al.), 1049 (Brief comm.)

Dysfunction

Intravascular and extravascular pulmonary fluid volumes during chronic experimental left ventricular dysfunction (Slutsky and Olson), 543

Sinus node dysfunction during coronary vasospastic angina (Bashour et al.), 1056 (Brief comm.)

Dyskinesia

Left ventricular dyskinesia following closed mitral commissurotomy (Nigri et al.), 1550 (Brief comm.)

Dysplasia, RV

16-year follow-up of arrhythmogenic right ventricular dysplasia (Higuchi et al.), 1363 (Brief comm.)

E

Echocardiographic

Cardiovascular response to chronic physical exertion and exercise training: an echocardiographic review (Graettinger), 1014

Echocardiographic assessment of congenital mitral stenosis (Vitarelli et al.), 523

Echocardiographic diagnosis of mobile right atrial thrombus: early recognition and treatment (Quinn, Plehn, and Liebman), 1548 (Brief comm.)

Echocardiographic diagnosis of right atrial thromboembolism resulting in massive pulmonary embolization (Goldberg et al.), 1371 (Brief comm.)

Echocardiographic evaluation of left ventricular outflow tract obstruction in complete transposition of the great arteries (Vitarelli et al.), 531

Echocardiographic findings in prosthetic mitral valve dysfunction (Amann et al.), 1573 (Brief comm.)

Echocardiographic study of left ventricular wall motion in mitral valve prolapse (Doi et al.), 105

Musical murmurs: clinical implications, long-term prognosis, and echo-phonocardiographic features (Sheikh et al.), 377

Echocardiography

Contrast bidimensional echocardiography in the morphologic and functional postoperative evaluation of the Senning technique for complete transposition of the great vessels (Pasalodos et al.), 110

Detection of posterior mediastinal lymphoma by pulsed Doppler echocardiography (Kinney et al.), 1365 (Brief comm.)

Detection of thrombosed aortic Björk-Shiley valve by two-dimensional echocardiography (Kinney et al.), 1042 (Brief comm.)

Infective endocarditis and echocardiography (O'Brien and Geiser), 386

Subcostal echocardiography in ventricular tachycardia (Wren), 1579 (Brief comm.)

Echocardiography, M-mode

Hemodynamic evaluation by M-mode echocardiography in acute myocardial infarction (Nador et al.), 38

Echocardiography, two-dimensional (2DE)

Evaluation of biventricular involvement in hypotensive patients with transmural inferior infarction by two-dimensional echocardiography (Jugdutt et al.), 1417

Relationship between auscultatory events and structural abnormalities in mitral valve prolapse: a two-dimensional echocardiographic evaluation (Arvan and Tunick), 1298

Transient changes in left ventricular mechanics during attacks of Prinzmetal angina: a two-dimensional echocardiographic study (Distante et al.), 440

Echographic

Echographic diagnosis of traumatic ventricular septal defect (Goldberg et al.), 416 (Brief comm.)

Edema, pulmonary. See Pulmonary edema

Electrocardiogram(s) (ECG)

Body surface isopotential maps in old anterior myocardial infarction undetectable by 12-lead electrocardiograms (Hirai et al.), 975

Can areas of myocardial ischemia be localized by the exercise electrocardiogram? A correlative study with thallium-201 scintigraphy (Abouantoun et al.), 933

The Diagonal Rule: a useful mnemonic in ECG interpretation (Sibbitt), 1591 (Letter)

Electrocardiographic

Coronary angiography during exercise-induced angina with ECG changes (Matsuda et al.), 959

Electrocardiographic diagnosis of left ventricular hypertrophy in the presence of left bundle branch block (Klein et al.), 502

Idiopathic recurrent sustained ventricular tachycardia responsive to verapamil: an ECG-electrophysiologic entity (Belhassen et al.), 1034 (Brief comm.)

Mexiletine for recurring ventricular arrhythmias: assessment by long-term electrocardiographic recordings and sequential electrophysiologic studies (Flaker et al.), 490

Transtelephonic electrocardiographic monitoring: reliability in detecting the ischemic ST segment response during exercise (Pratt et al.), 967

Ventricular fibrillation during ambulatory electrocardiography (Northcote and Ballantyne), 1560 (Brief comm.)

Electrode(s)

Effect of electrode position on atrial sensing for physiologically responsive cardiac pacemakers (Timmis et al.), 909

Electrodes, pacemaker. See Pacemaker(s)

Electrolytes. See Cardiac electrolytes

Electrophysiology(gic)

Idiopathic recurrent sustained ventricular tachycardia responsive to verapamil: an ECG-electrophysiologic entity (Belhassen et al.), 1034 (Brief comm.)

Mexiletine for recurring ventricular arrhythmias: assessment by long-term electrocardiographic recordings and sequential electrophysiologic studies (Flaker et al.), 490

Totally automated electrophysiologic testing of sinus node function (Zinner, Gillette, and Combs), 1024

Embolism, pulmonary

Transient right atrial thrombus resulting in pulmonary embolism detected by two-dimensional echocardiography (Malloy et al.), 1047 (Brief comm.)

Embolus(i)

Recurrent systemic emboli following myocardial contusion (Dugani et al.), 1354 (Brief comm.)

Endocarditis

Dura mater valve endocarditis related to retained fragment of postoperative temporary epicardial pacemaker lead (Mansur et al.), 1049 (Brief comm.)

Gonococcal endocarditis: a case series demonstrating modern presentation of an old disease (Fernandez et al.), 1326 (Curriculum in Cardiology)

Group A beta-hemolytic streptococcus endocarditis (Ramirez, Naraqi, and McCulley), 1383 (Brief comm.)

Infective endocarditis and echocardiography (O'Brien and Geiser), 386

Operative approach to endocarditis (Perry et al.), 561

Persistent endomyocardial biopsy-proven vasculitis following cure of endocarditis (Shanes et al.), 614 (Brief comm.)

Pneumococcal endocarditis following splenectomy for trauma (Misri and Rohatgi), 622 (Brief comm.)

Two-dimensional echocardiographic demonstration of flail pulmonary valve due to infective endocarditis (Harasawa et al.), 1552 (Brief comm.)

Endomyocardial vasculitis

Persistent endomyocardial biopsy-proven vasculitis following cure of endocarditis (Shanes et al.), 614 (Brief comm.)

Essential hypertension. See Hypertension

Ethmozin

Ethmozin. I. Effects of intravenous drug administration on paroxysmal supraventricular tachycardia in the ventricular preexcitation syndrome (Chazov, Shugushev, and Rosenshtraukh), 475

Ethmozin—Cont'd

Ethmozin. II. Effects of intravenous drug administration on atrioventricular nodal reentrant tachycardia (Chazov, Rosenshtraukh, and Shugushev), 483

Evans County

Black-white differences in plasma levels of apolipoproteins: the Evans County Heart Study (Heiss et al.), 807

Ischemic heart disease risk factors and 20-year mortality in middle-age Evans County black males (Tyroler et al.), 738

Exercise

A new approach to quantitation of exercise thallium-201 scintigraphy before and after an intervention: application to define the impact of coronary angioplasty on regional myocardial perfusion (Lim et al.), 917

Ethmozin—Cont'd

Ethmozin. II. Effects of intravenous drug administration on atrioventricular nodal reentrant tachycardia (Chazov, Rosenshtraukh, and Shugushev), 483

Evans County

Black-white differences in plasma levels of apolipoproteins: the Evans County Heart Study (Heiss et al.), 807

Ischemic heart disease risk factors and 20-year mortality in middle-age Evans County black males (Tyroler et al.), 738

Exercise

A new approach to quantitation of exercise thallium-201 scintigraphy before and after an intervention: application to define the impact of coronary angioplasty on regional myocardial perfusion (Lim et al.), 917

Abnormal heart rate response to exercise in vasospastic angina: pathophysiologic mechanism in provocation of coronary spasm (Sato et al.), 316

Cardiovascular response to chronic physical exertion and exercise training: an echocardiographic review (Graettinger), 1014

Coronary angiography during exercise-induced angina with ECG changes (Matsuda et al.), 959

Directional variability in the R wave responses during serial exercise testing in patients with coronary artery disease (Voyles, Smith, and Abrams), 983

Effectiveness of a low lipid diet and exercise in management of coronary artery disease (Ribeiro et al.), 1183

Exercise-induced left bundle branch block: resolution after coronary angioplasty (Puleo et al.), 1373 (Brief comm.)

Maximal exercise in children with aortic regurgitation: an adjunct to noninvasive assessment of disease severity (Goforth et al.), 1306

Nifedipine in congestive heart failure: effects on resting and exercise hemodynamics and regional blood flow (Leier et al.), 1461

Predicting oxygen uptake from treadmill testing in normal subjects and coronary artery disease patients (Roberts et al.), 1454

Transtelephonic electrocardiographic monitoring: reliability in detecting the ischemic ST segment response during exercise (Pratt et al.), 967

Exercise ECG

Can areas of myocardial ischemia be localized by the exercise electrocardiogram? A correlative study with thallium-201 scintigraphy (Abouantoun et al.), 933

Diagnostic impact of thallium scintigraphy and cardiac fluoroscopy when the exercise ECG is strongly positive (Chaitman et al.), 260

F

Fever, Korean hemorrhagic. *See* Korean hemorrhagic fever

Fiberoptic laser

Cardiac metabolism monitored by fiberoptic laser fluorimeter (Renault et al.), 428 (Brief comm.)

Febrile reaction

Febrile reaction following nifedipine therapy (Carraway), 611 (Brief comm.)

Fibrillation. See Atrial and ventricular fibrillation

Fistula(s), artery

Multiple coronary-to-pulmonary artery fistulas with progressive aneurysmal dilatation (Egashira et al.), 1038 (Brief comm.)

Systemic pulmonary arterial fistula diagnosed with aid of radionuclide angiography (Rashkow, Prokop, and Fazzone), 1562 (Brief comm.)

Flail pulmonic valve

Two-dimensional echocardiographic demonstration of flail pulmonic valve due to infective endocarditis (Harasawa et al.), 1552 (Brief comm.)

Framingham Study

The prognostic significance of proteinuria: the Framingham study (Kannel et al.), 1347

Furosemide

Prolonged hemodynamic effect of furosemide in congestive heart failure (Brater, Chennavasani, and Dehmer), 1031 (Brief comm.)

G

Gonococcal endocarditis

Gonococcal endocarditis: a case series demonstrating modern presentation of an old disease (Fernandez et al.), 1326

Great arteries, transposition of

Echocardiographic evaluation of left ventricular outflow tract obstruction in complete transposition of the great arteries (Vitarelli et al.), 531

Guillain-Barré syndrome

Bradycardia and asystole requiring permanent pacemaker in Guillain-Barré syndrome (Narayan, Huang, and Mathew), 426 (Brief comm.)

H

Heart

Direct pharmacologic and osmotic effects of contrast media on the mechanics of heart muscle isolated from cats (Chuck et al.), 97

Ten-year survival after subacute heart rupture post AMI (Feneley, Chang, and O'Rourke), 1589 (Letter)

Heart disease. See also Congenital heart disease, Coronary heart disease, Ischemic heart disease

Epidemiology of coronary heart disease in black populations: methodologic proposals (Watkins), 635

Rebound phenomena following gradual withdrawal of chronic metoprolol treatment in patients with ischemic heart disease (Olsson, Hjemdahl, and Rehnqvist), 454

Heart failure. See also Congestive heart failure

Clinical efficacy of hydralazine in chronic heart failure: one-year double-blind placebo-controlled study (Conradson et al.), 1001

Estimation of angiotensin II receptor activity in chronic congestive heart failure (Cody et al.), 81

Increased congestive heart failure after myocardial infarction of modest extent in patients with diabetes mellitus (Jaffe et al.), 31

Mechanisms of improved left ventricular function following intravenous MDL 17,043 in patients with severe chronic heart failure (Kereiakes et al.), 1278

Myocardial metabolic and hemodynamic effects of intravenous MDL 17,043, a new cardiotonic drug, in patients with chronic severe heart failure (Amin et al.), 1285

Nifedipine in congestive heart failure: effects on resting and exercise hemodynamics and regional blood flow (Leier et al.), 1461

Heart rate

Abnormal heart rate response to exercise in vasospastic angina: pathophysiologic mechanism in provocation of coronary spasm (Sato et al.), 316

Effects of nadolol on the spontaneous and exercise-provoked heart rate of patients with chronic atrial fibrillation receiving stable dosages of digoxin (DiBianco et al.), 1121

Reflex heart rate and blood pressure changes during ST segment elevation in patients with variant angina (Araki et al.), 1273

Hemodialysis

Nadolol in hypertensive patients maintained on long-term hemodialysis (Michaels et al.), 1091

Hemodynamics

Effects of diltiazem on coronary and systemic hemodynamics in humans (Marzilli et al.), 276

Prolonged hemodynamic effect of furosemide in congestive heart failure (Brater, Chennavasin, and Dehmer), 1031 (Brief comm.)

Pulmonary hemodynamics and maintenance of palliation following polytetrafluoroethylene shunts for cyanotic congenital heart disease (Bove et al.), 366

Hemophilus influenzae pericarditis

Non surgical treatment of *Hemophilus influenzae* pericarditis in an adult (Kieffaber, Bach, and McDowell), 168 (Brief comm.)

Hemorrhage

Unique selective right atrial hemorrhage with epidemic (Korean) hemorrhagic fever (Chun and Godfrey), 410 (Brief comm.)

Heparin

Heparin-related thrombosis after myocardial infarction (Hawkins and Schwartz), 1543 (Brief comm.)

Hepatic

Effects of nadolol treatment on renal and hepatic hemodynamics and function in cirrhotic patients with portal hypertension (Gatta et al.), 1167

Evaluation of tricuspid regurgitation by blood flow pattern in the hepatic vein using pulsed Doppler technique (Sakai et al.), 516

High-density lipoprotein

Determinants of high-density lipoprotein cholesterol in blacks and whites: the second National Health and Nutrition Examination Survey (Gartside, Khoury, and Glueck), 641

High-density lipoprotein cholesterol in blacks and whites: potential ramifications for coronary heart disease (Glueck et al.), 815

Modulation of high-density lipoprotein: importance of protein phosphorylation/dephosphorylation (Hooper and Scallen), 1393

His bundle

Dual anterograde His bundle pathways in man (Alboni et al.), 611 (Brief comm.)

Holter monitoring

Role of Holter monitoring in patients with recurrent sustained ventricular tachycardia: an electrophysiologic correlation (Ezri, Huang, and Denes), 1229

Hydralazine

Clinical efficacy of hydralazine in chronic heart failure: one-year double-blind placebo-controlled study (Conradson et al.), 1001

Hydrops fetalis

Nonimmunologic hydrops fetalis associated with congenital aortic valvular stenosis (Strasburger et al.), 1380 (Brief comm.)

Hyperglycemia

Prevalence of diabetes/hyperglycemia and associated cardiovascular risk factors in blacks and whites: Chicago Heart Association Detection Project in Industry (Cooper et al.), 827

Hypertension

Effects of nadolol treatment on renal and hepatic hemodynamics and function in cirrhotic patients with portal hypertension (Gatta et al.), 1167

Impaired systemic arterial compliance in borderline hypertension (Ventura et al.), 132

Long-term experience with nadolol in treatment of hypertension and angina pectoris (Alexander et al.), 1136

Long-term renal hemodynamic effects of nadolol in patients with essential hypertension (Frohlich et al.), 1141

Peripheral hemodynamic effects of short-term nadolol administration in essential hypertension (Levenson et al.), 1177

Prevalence of sleep apnea syndrome among patients with essential hypertension (Lavie, Ben-Yosef, and Rubin), 373

Propranolol versus verapamil for the treatment of essential hypertension (Hornung et al.), 554

Rest and exercise hemodynamic effects of sequential alpha-1-adrenoceptor (trimazosin) and beta-adrenoceptor (propranolol) antagonism in essential hypertension (Nelson et al.), 124

Single-agent and combination therapy of essential hypertension (Weber and Drayer), 311

24-hour blood pressure profile and blood pressure variability in untreated hypertension and during antihypertensive treatment by once-a-day nadolol (Mancia et al.), 1078

Hypertension Detection and Follow-up Program

Black-white comparison of indices of coronary heart disease and myocardial infarction in the stepped-care cohort of the Hypertension Detection and Follow-up Program (Langford et al.), 797

Hypertensive

Black-white contrasts as determinants of cardiovascular risk in childhood: precursors of coronary artery and primary hypertensive diseases (Berenson et al.), 672

Coronary heart disease in treated hypertensive patients and risk-matched normotensive control subjects (Forsyth), 305

Nadolol in hypertensive patients maintained on long-term hemodialysis (Michaels et al.), 1091

Hypertrophic cardiomyopathy

Apical hypertrophic cardiomyopathy in American patients (Vacek et al.), 1501

Prognosis in hypertrophic cardiomyopathy (Koga, Itaya, and Toshima), 351

Hypertrophic cardiomyopathy—Cont'd

Secondary hypertrophic cardiomyopathy in infancy and childhood (Alday and Moreyra), 996

Hypertrophy, left ventricular

Electrocardiographic diagnosis of left ventricular hypertrophy in the presence of left bundle branch block (Klein et al.), 502

Hyperventilation

Hyperventilation-induced variant angina with ventricular tachycardia (Hisano et al.), 423 (Brief comm.)

Hypocalcemia

Hypocalcemic acute myocardial failure secondary to rapid transfusion of citrated blood (Bashour et al.), 1040 (Brief comm.)

Hyponatremia

Hyponatremia in patients treated with lorcinide, a new anti-arrhythmic drug (Somani et al.), 1443

Hypotensive patients

Evaluation of biventricular involvement in hypotensive patients with transmural inferior infarction by two-dimensional echocardiography (Jugdutt et al.), 1417

I

Infants

Secondary hypertrophic cardiomyopathy in infancy and childhood (Alday and Moreyra), 996

Infarct size

Comparison of a QRS scoring system for estimating acute infarct size with radionuclide left ventriculography (Babbitt et al.), 1426

Infarction

Isolated right ventricular infarction with ventricular tachycardia (Weiss et al.), 425 (Brief comm.)

Reversibility of hypotension and shock by atrial or atrioventricular sequential pacing in patients with right ventricular infarction (Love et al.), 5

Right precordial ST and QRS changes in the diagnosis of right ventricular infarction (Morgera et al.), 13

Infarction, myocardial. See Myocardial infarction

Infection

Investigations on staphylococcal infection of transvenous endocardial pacemaker electrodes (Peters et al.), 359

Infective endocarditis

Two-dimensional echocardiographic demonstration of flail pulmonic valve due to infective endocarditis (Harasawa et al.), 1552 (Brief comm.)

Infundibular VSD

Natural history of subarterial infundibular ventricular septal defect (Momma et al.), 1312

International diagnostic criteria

International diagnostic criteria for acute myocardial infarction and acute stroke (Gillum et al.), 150

Interventricular septum

Diastolic fluttering of interventricular septum in left atrial sarcoma (Yoshimura et al.), 1050 (Brief comm.)

Intra-aortic balloon counterpulsation

Delayed abrasion perforation of two intra-aortic balloons (Mayerhofer, Billhardt, and Codini), 1361 (Brief comm.)

Intracardiac masses

Evaluation of intracardiac masses by digital subtraction angiography (Yiannikas, Zaidi, and Moodie), 600 (Brief comm.)

Multiple intracardiac masses complicating peritoneo-venous (LeVeen) shunt (Pietro et al.), 606 (Brief comm.)

Intracoronary thrombolysis. See Thrombolysis, intracoronary

Intracoronary thrombus

Occurrence of angiographically detected intracoronary thrombus in patients with unstable angina pectoris (Zack et al.), 1408

Introduction

Introduction to Symposium on The increasing value of beta blockers: Focus on nadolol (Kaplan), 1069

Ischemia

Mechanisms of ventricular arrhythmias in multivessel coronary disease: the effects of collateral zone ischemia (Kabell et al.), 447

Rebound recovery of myocardial creatine phosphate with reperfusion after ischemia (Ichihara and Abiko), 1594

Ischemic heart disease

Comparative effects of oral acebutolol and propranolol at rest and during exercise in ischemic heart disease: double-blind placebo crossover study utilizing radionuclide ventriculography (Kaul et al.), 469

Influence of beta-adrenergic blockade on the hemodynamic effects of physical training in patients with ischemic heart disease (Vanhees, Fagard, and Amery), 270

Ischemic heart disease risk factors and 20-year mortality in middle-age Evans County black males (Tyroler et al.), 738

Plasma viscosity in ischemic heart disease (Fuchs et al.), 435

Rebound phenomena following gradual withdrawal of chronic metoprolol treatment in patients with ischemic heart disease (Olsson, Hjendahl, and Rehnqvist), 454

Isosorbide dinitrate

Concomitant calcium antagonist plus isosorbide dinitrate therapy for markedly active variant angina (Winniford et al.), 1269

J

Japanese patients

Relationship between lipids and angiographically defined coronary artery disease in Japanese patients (Kanamori et al.), 1207

Jugular venous

Percutaneous removal of intracardiac catheter fragment: unique internal jugular venous approach (Glatter, Scott, and Early), 408 (Brief comm.)

K

Korean hemorrhagic fever

Unique selective right atrial hemorrhage with epidemic (Korean) hemorrhagic fever (Chun and Godfrey), 410 (Brief comm.)

L

Laser

Cardiac metabolism monitored by fiberoptic laser fluorimeter (Renault et al.), 428 (Brief comm.)

Potential complications of coronary laser angioplasty (Lee et al.), 1577 (Brief comm.)

Left anterior descending coronary artery. See also Coronary artery

Origin of the left anterior descending coronary artery from the left mammary artery (Robicsek), 1377 (Brief comm.)

Left atrial thrombus

Myocarditis presenting with "silent" atrium and left atrial thrombus (Wohlgeleit et al.), 1557 (Brief comm.)

Left atrium. See also Atrium

Preoperative echographic diagnosis of supraventricular stenosing ring of the left atrium (Glaser, Yakirevich, and Vidne), 169 (Brief comm.)

Left bundle branch block (LBBB)

Exercise-induced left bundle branch block: resolution after coronary angioplasty (Puleo et al.), 1373 (Brief comm.)

Left coronary artery

Anomalous left coronary artery origin from the right coronary artery (Davia et al.), 165 (Brief comm.)

Visualization of left coronary artery in anomalous origin of left coronary artery from pulmonary artery (Shem-Tov et al.), 621 (Brief comm.)

Left ventricle, left ventricular

Decreased contractility and compliance of the left ventricle as complications of thermal trauma (Adams, Baxter, and Izenberg), 1477

Disparate unloading efficacy of the calcium channel blockers, verapamil and nifedipine, on the failing hypertensive left ventricle (Guazzi et al.), 116

Effects of presence or absence of preceding angina pectoris on left ventricular function after acute myocardial infarction (Matsuda et al.), 955

Intravascular and extravascular pulmonary fluid volumes during chronic experimental left ventricular dysfunction (Slutskey and Olson), 543

Left ventricle, left ventricular—Cont'd

- Left ventricular dyskinesia following closed mitral commissurotomy (Nigri et al.), 1550 (Brief comm.)
- Left ventricular function at rest and during Raynaud's phenomenon in patients with scleroderma (Siegel et al.), 1469
- Limitations of quantitative phase analysis of radionuclide angiograms for detecting coronary artery disease in patients with impaired left ventricular function (Schwaiger et al.), 942
- Mechanisms of improved left ventricular function following intravenous MDL 17,043 in patients with severe chronic heart failure (Kereiakes et al.), 1278
- Relationship of specific coronary lesions and regional left ventricular dysfunction to prognosis in survivors of sudden cardiac death (Vlay et al.), 1212
- Usefulness of chest x-ray for predicting abnormal left ventricular function after acute myocardial infarction (Madsen et al.), 1431

Left ventricular hypertrophy. See Hypertrophy, left ventricular

Left ventricular outflow tract. See Outflow tract

Leiomyomatosis

- Tricuspid valve obstruction due to intravenous leiomyomatosis (Gonzalez-Lavin et al.), 1544 (Brief comm.)

LeVeen shunt

- Multiple intracardiac masses complicating peritoneo-venous (LeVeen) shunt (Pietro et al.), 606 (Brief comm.)

Lidocaine

- Cimetidine-induced decrease in lidocaine metabolism (Bauer et al.), 413 (Brief comm.)

Lipid(s)

- Effectiveness of a low lipid diet and exercise in management of coronary artery disease (Ribeiro et al.), 1183
- Relationship between lipids and angiographically defined coronary artery disease in Japanese patients (Kanamori et al.), 1207

Lipoprotein

- Modulation of high-density lipoprotein: importance of protein phosphorylation/dephosphorylation (Hooper and Scallen), 1393

Lithium, serum

- Decreased serum lithium during verapamil therapy (Weinrauch, Belok, and D'Elia), 1378 (Brief comm.)

Lorcainide

- Hyponatremia in patients treated with lorcainide, a new anti-arrhythmic drug (Somani et al.), 1443

Lymphoma

- Detection of posterior mediastinal lymphoma by pulsed Doppler echocardiography (Kinney et al.), 1365 (Brief comm.)

M**Magnesium**

- Magnesium: Nature's physiologic calcium blocker (Iseri and French), 188

Mammary artery

- Origin of left anterior descending coronary artery from left mammary artery (Robicsek), 1377 (Brief comm.)

MDL 17,043

- Mechanisms of improved left ventricular function following intravenous MDL 17,043 in patients with severe chronic heart failure (Kereiakes et al.), 1278
- Myocardial metabolic and hemodynamic effects of intravenous MDL 17,043, a new cardiotonic drug, in patients with chronic severe heart failure (Amin et al.), 1285

Medical management of CHD

- Issues in the natural history and treatment of coronary heart disease in black populations: medical management (Haywood), 683

Metabolism

- Cardiac metabolism monitored by fiberoptic laser fluorimeter (Renault et al.), 428 (Brief comm.)
- Cimetidine-induced decrease in lidocaine metabolism (Bauer et al.), 413 (Brief comm.)

Metoprolol

- Rebound phenomena following gradual withdrawal of chronic metoprolol treatment in patients with ischemic heart disease (Olsson, Hjemdahl, and Rehnqvist), 454

Mexiletine

- Mexiletine for recurring ventricular arrhythmias: assessment by long-term electrocardiographic recordings and sequential electrophysiologic studies (Flaker et al.), 490

Migraine

- Comparative study of nadolol and propranolol in prophylactic treatment of migraine (Ryan), 1156

Mitral

- Effects of chronic digoxin treatment on cardiac function, electrolytes, and sarcolemmal ATPase in the canine failing heart due to chronic mitral regurgitation (Prasad, O'Neil, and Bharadwaj), 1487

- Left ventricular dyskinesia following closed mitral commissurotomy (Nigri et al.), 1550 (Brief comm.)

- Ruptured aneurysm of mitral annulus in bacterial endocarditis (Fein et al.), 171 (Brief comm.)

- Transesophageal 2-D echocardiographic feature of flail mitral leaflet due to ruptured chordae tendineae (Schlüter, Kremer, and Hanrath), 609 (Brief comm.)

- Two-dimensional echocardiographic documentation of accessory chordae tendineae accompanying isolated anterior mitral cleft (Yamamoto et al.), 1554 (Brief comm.)

Mitral stenosis. See Stenosis

Mitral valve prolapse

- Echocardiographic study of left ventricular wall motion in mitral valve prolapse (Doi et al.), 105

- Relationship between auscultatory events and structural abnormalities in mitral valve prolapse: a two-dimensional echocardiographic evaluation (Arvan and Tunick), 1298

M-mode echocardiogram(phy)

- Hemodynamic evaluation by M-mode echocardiography in acute myocardial infarction (Nador et al.), 38

- M-mode echographic features of ruptured sinus of Valsalva aneurysms (Gherasim et al.), 183 (Brief comm.)

Multiple Risk Factor Trial

- Responses of black and white males to the special intervention program of the Multiple Risk Factor Intervention Trial (Connert and Stamler), 839

Murmur(s)

- Differential diagnosis of various causes of systolic-diastolic murmurs using pulsed Doppler echocardiography (Vargas-Barron et al.), 1507

- Musical murmurs: clinical implications, long-term prognosis, and echo-phonocardiographic features (Sheikh et al.), 377

Musicians

- Beneficial effect of nadolol on anxiety-induced disturbances of performance in musicians: a comparison with diazepam and placebo (James and Savage), 1150

Myocardial

- A new approach to quantitation of exercise thallium-201 scintigraphy before and after an intervention: application to define the impact of coronary angioplasty on regional myocardial perfusion (Lim et al.), 917

- Can areas of myocardial ischemia be localized by the exercise electrocardiogram? A correlative study with thallium-201 scintigraphy (Abouantoun et al.), 933

- Hemodynamic determinants of coronary constriction in human myocardial bridges (Carvalho et al.), 73

- Hypocalcemic acute myocardial failure secondary to rapid transfusion of citrated blood (Bashour et al.), 1040 (Brief comm.)

- Intracoronary thrombolysis in acute myocardial infarction: clinical course following successful myocardial reperfusion (Urban et al.), 873

- Myocardial bridge associated with pacing-induced coronary spasm (Grover and John Mancini), 1540 (Brief comm.)

- Rebound recovery of myocardial creatine phosphate with reperfusion after ischemia (Ichihara and Abiko), 1594 (Letter)

- Recurrent systemic emboli following myocardial contusion (Dugani et al.), 1354 (Brief comm.)

- Results of myocardial revascularization in black males (Sterling et al.), 695

- Right ventricular myocardial contusion simulating constrictive pericardial disease (Ruder et al.), 1353 (Brief communication)

Myocardial infarction

- Acute myocardial infarction: sex-related differences in prognosis (Puletti et al.), 63

- Advanced early and late atrioventricular block in acute inferior wall myocardial infarction (Sclarovsky et al.), 19

Myocardial infarction—Cont'd

- Black-white comparison of indices of coronary heart disease and myocardial infarction in the stepped-care cohort of the Hypertension Detection and Follow-up Program (Langford et al.), 797
- Body surface isopotential maps in old anterior myocardial infarction undetectable by 12-lead electrocardiograms (Hirai et al.), 975
- Comparison of QRS score and treadmill performance for assessing ventricular function after myocardial infarction (Gupta and Gupta), 266
- Coronary lesions in neurofibromatosis associated with vasospasm and myocardial infarction (Halper and Factor), 420 (Brief comm.)
- Disappearance of pathologic Q wave after PTCA in evolving myocardial infarction (Ibba et al.), 1538 (Brief comm.)
- Effects of beta-adrenergic inhibition on scar formation after myocardial infarction (Ravindranathan et al.), 25
- Effects of presence or absence of preceding angina pectoris on left ventricular function after acute myocardial infarction (Matsuda et al.), 955
- Evaluation of biventricular involvement in hypotensive patients with transmural inferior infarction by two-dimensional echocardiography (Jugdutt et al.), 1417
- Evaluation of habitual excessive alcohol consumption on myocardial infarction risk in coronary disease patients (Deutscher, Rockette, and Krishnaswami), 988
- Hemodynamic evaluation by M-mode echocardiography in acute myocardial infarction (Nador et al.), 38
- Heparin-related thrombosis after myocardial infarction (Hawkins and Schwartz), 1543 (Brief comm.)
- High mortality early reinfarction with first nontransmural myocardial infarction (Hollander et al.), 1412
- Imaging of acute myocardial infarction in man with contrast-enhanced computed transmission tomography (Kramer et al.), 1514
- International diagnostic criteria for acute myocardial infarction and acute stroke (Gillum et al.), 150
- Intracoronary thrombolysis in acute myocardial infarction: clinical course following successful myocardial reperfusion (Urban et al.), 873
- Intraventricular conduction defects in acute myocardial infarction: incidence, prognosis, and therapy (Klein, Vera, and Mason), 1007
- Long-term follow-up after intracoronary streptokinase for myocardial infarction: a randomized, controlled study (Anderson et al.), 1402
- Nuclear magnetic resonance analysis of acute and chronic myocardial infarction in dogs: alterations in spin-lattice relaxation times (Brown et al.), 1292
- Prognostic implications of complicated ventricular arrhythmias early after hospital discharge in acute myocardial infarction: a serial ambulatory electrocardiography study (Olson et al.), 1221
- Prognostic importance of QT_c interval at discharge after acute myocardial infarction: a multicenter study of 865 patients (Ahnve et al.), 395
- Regional and global left ventricular function during intra-aortic balloon counterpulsation in patients with acute myocardial infarction shock (Weiss et al.), 249
- Right ventricular function evaluated by radionuclide angiography in acute myocardial infarction (Hirsowitz, Lakier, and Goldstein), 949
- Ten-year survival after subacute heart rupture post AMI (Feneley, Chang, and O'Rourke), 1589 (Letter)
- The Birmingham Trial of permanent pacing in patients with intraventricular conduction disorders after acute myocardial infarction (Watson et al.), 496
- The role of anticoagulant therapy in acute myocardial infarction (Goldberg, Gore, and Dalen), 1387
- Thromboxane A₂ in acute myocardial infarction (Walinsky et al.), 868
- Two-dimensional echographic visualization of free ventricular wall rupture in acute anterior myocardial infarction (Desouter, Halphen, and Haiat), 1360 (Brief comm.)
- Usefulness of chest x-ray for predicting abnormal left ventricular function after acute myocardial infarction (Madsen et al.), 1431

Myocarditis

- Myocarditis and cardiomyopathy (Kereiakes and Parmley), 1318

Myocarditis—Cont'd

- Myocarditis presenting with "silent" atrium and left atrial thrombus (Wohlgelemer et al.), 1557 (Brief comm.)

N

Nadolol

- A comparison of propranolol and nadolol pharmacokinetics and clinical effects in thyrotoxicosis (Wilkinson and Burr), 1160
- Atenolol, nadolol, and pindolol in angina pectoris on effort: effect of pharmacokinetics (Kostis et al.), 1131
- Beneficial effect of nadolol on anxiety-induced disturbances of performance in musicians: a comparison with diazepam and placebo (James and Savage), 1150
- Beta-adrenergic blockade by nadolol in control of ventricular tachyarrhythmias (Nademanee et al.), 1109
- Beta-blocking therapy in atrial and ventricular tachyarrhythmias: experience with nadolol (Coulmel, Escoubet, and Attuel), 1098
- Comparative effects of propranolol and nadolol on renal blood flow in normal rats and rats with congestive heart failure (Brenner et al.), 1144
- Comparative study of nadolol and propranolol in prophylactic treatment of migraine (Ryan), 1156
- Comparison of kinetic interactions of nadolol and propranolol with cimetidine (Duchin et al.), 1084
- Effects of nadolol on the spontaneous and exercise-provoked heart rate of patients with chronic atrial fibrillation receiving stable dosages of digoxin (DiBianco et al.), 1121
- Effects of nadolol treatment on renal and hepatic hemodynamics and function in cirrhotic patients with portal hypertension (Gatta et al.), 1167
- Long-term experience with nadolol in treatment of hypertension and angina pectoris (Alexander et al.), 1136
- Long-term renal hemodynamic effects of nadolol in patients with essential hypertension (Frohlich et al.), 1141
- Nadolol in hypertensive patients maintained on long-term hemodialysis (Michaels et al.), 1091
- Peripheral hemodynamic effects of short-term nadolol administration in essential hypertension (Levenson et al.), 1177
- 24-hour blood pressure profile and blood pressure variability in untreated hypertension and during antihypertensive treatment by once-a-day nadolol (Mancia et al.), 1078
- Veterans Administration cooperative study on nadolol as monotherapy and in combination with a diuretic (Freis), 1087

National Health and Nutrition Survey

- Coronary heart disease risk factor trends in blacks between the first and second National Health and Nutrition Examination Surveys, United States, 1971-1980 (Rowland and Fulwood), 771
- Determinants of high-density lipoprotein cholesterol in blacks and whites: the second National Health and Nutrition Examination Survey (Gartside, Khoury, and Glueck), 641

NHLBI Registry

- Determinants of successful percutaneous transluminal coronary angioplasty: report from the National Heart, Lung, and Blood Institute Registry (Faxon et al.), 1019

Neonate(s)

- Neonatal cyanosis caused by cardiac rhabdomyomas (Lababidi et al.), 624 (Brief comm.)

Neurofibromatosis

- Coronary lesions in neurofibromatosis associated with vasospasm and myocardial infarction (Halper and Factor), 420 (Brief comm.)

New Orleans, CHD in

- Coronary heart disease in young black and white males in New Orleans: community pathology study (Strong et al.), 747

Nifedipine

- Disparate unloading efficacy of the calcium channel blockers, verapamil and nifedipine, on the failing hypertensive left ventricle (Guazzi et al.), 116
- Febrile reaction following nifedipine therapy (Carraway), 611 (Brief comm.)
- Long-term beneficial effect of nifedipine in primary pulmonary hypertension (Lunde and Rasmussen), 415 (Brief comm.)
- Nifedipine in congestive heart failure: effects on resting and exercise hemodynamics and regional blood flow (Leier et al.), 1461

Nifedipine—Cont'd

- Nifedipine-induced alterations in serum quinidine concentrations (Farringer et al.), 1570 (Brief comm.)
- Nifedipine-induced fingertip vasodilation in patients with Raynaud's phenomenon (Creager et al.), 370

Nitroglycerin

- Allergic contact dermatitis secondary to transdermal nitroglycerin (Rosenfeld and White), 1061 (Brief comm.)
- Failure of transdermal nitroglycerin to improve chronic stable angina: a randomized, placebo-controlled, double-blind, double crossover trial (Crean et al.), 1494
- Intravenous nitroglycerin: clinical pharmacology and therapeutic considerations (Herling), 141
- Transcutaneous nitroglycerin—ointment or disc? (Abrams), 1597

Noninvasive tests

- Evaluation of noninvasive tests for identifying patients with preexcitation syndrome at risk of rapid ventricular response (Critelli et al.), 905

Nontransmural myocardial infarction. See Myocardial infarction**Nuclear magnetic resonance (NMR) imaging**

- Nuclear magnetic resonance analysis of acute and chronic myocardial infarction in dogs: alterations in spin-lattice relaxation times (Brown et al.), 1292
- Nuclear magnetic resonance: theory and review of cardiac applications (Osbakken and Briggs), 574
- Proton nuclear magnetic resonance tissue analysis of normal, volume overloaded, and dehydrated rabbit myocardium (Brown, Andre, and Slutsky), 159

O

Open-heart surgery

- Detection of occult pericardial hemorrhage early after open-heart surgery using technetium-99m red blood cell radionuclide ventriculography (Bateman et al.), 1198

Operation(s)

- Operative approach to endocarditis (Perry et al.), 561

Osmotic pressure

- Sustained venous occlusion plethysmography: effects on protein osmotic pressure, intravascular volume, and capillary filtration (Dittrich, Peck, and Slutsky), 548

Outflow tract

- Calculation of pulsed Doppler left ventricular outflow tract regurgitant index for grading severity of aortic regurgitation (Veyrat et al.), 507
- Echocardiographic evaluation of left ventricular outflow tract obstruction in complete transposition of the great arteries (Vitarello et al.), 531

Oxygen uptake

- Predicting oxygen uptake from treadmill testing in normal subjects and coronary artery disease patients (Roberts et al.), 1454

P

Pacemaker(s)

- Bradycardia and asystole requiring permanent pacemaker in Guillain-Barré syndrome (Narayan, Huang, and Mathew), 426 (Brief comm.)
- Dura mater valve endocarditis related to retained fragment of postoperative temporary epicardial pacemaker lead (Mansur et al.), 1049 (Brief comm.)
- Effect of electrode position on atrial sensing for physiologically responsive cardiac pacemakers (Timmis et al.), 909
- Investigations on staphylococcal infection of transvenous endocardial pacemaker electrodes (Peters et al.), 359
- Symptoms and associated illness among patients with ventricular pacemakers: implications for pacemaker selection (McGuire and Kaiser), 629

Pacing, cardiac

- Myocardial bridge associated with pacing-induced coronary spasm (Grover and John Mancini), 1540 (Brief comm.)
- Reversibility of hypotension and shock by atrial or atrioventricular sequential pacing in patients with right ventricular infarction (Love et al.), 5

Pacing, cardiac—Cont'd

- The Birmingham Trial of permanent pacing in patients with intraventricular conduction disorders after acute myocardial infarction (Watson et al.), 496
- Ventriculoatrial conduction in swine during cardiac pacing: animal model for retrograde conduction (Bowman and Hughes), 337

Panel discussion

- Panel discussion and questions—Session I of Symposium on The increasing value of beta blockers: Focus on nadolol, 1095
- Panel discussion and questions—Session II of Symposium on The increasing value of beta blockers: Focus on nadolol, 1128
- Panel discussion and questions—Session III of Symposium on The increasing value of beta blockers: Focus on nadolol, 1148

Percutaneous removal

- Percutaneous removal of intracardiac catheter fragment: unique internal jugular venous approach (Glatter, Scott, and Early), 408 (Brief comm.)

Percutaneous transluminal coronary angioplasty (PTCA)

- Chest pain following PTCA (Sanders), 1585 (Letter); Reply (Gruentzig), 1586
- Determinants of successful percutaneous transluminal coronary angioplasty: report from the National Heart, Lung, and Blood Institute Registry (Faxon et al.), 1019
- Disappearance of pathologic Q wave after PTCA in evolving myocardial infarction (Ibba et al.), 1538 (Brief comm.)

Perforation, balloon

- Delayed abrasion perforation of two intra-aortic balloons (Mayerhofer, Billhardt, and Codini), 1361 (Brief comm.)

Perfusion, coronary. See under Coronary**Pericardial**

- Detection of occult pericardial hemorrhage early after open-heart surgery using technetium-99m red blood cell radionuclide ventriculography (Bateman et al.), 1198
- Intravascular and extravascular pulmonary fluid volumes during acute experimental pericardial tamponade (Slutsky et al.), 90
- Pericardial pressure assessed by right atrial pressure: a basis for calculation of left ventricular transmural pressure (Smiseth, Refsum, and Tyberg), 603 (Brief comm.)
- Pseudoposterior pericardial effusion due to enlarged left atrium (Chen et al.), 1044 (Brief comm.)

Pericardiocentesis

- RV dilation following pericardiocentesis (Viquerat), 1586 (Letter); Reply (Armstrong), 1586

Pericarditis

- Adhesive pericarditis with unusual systolic click (Linsensmeyer et al.), 1062 (Brief comm.)
- Nonsurgical treatment of *Haemophilus influenzae* pericarditis in an adult (Kiefaber, Bach, and McDowell), 168 (Brief comm.)
- The septal arteries in differential diagnosis of constrictive pericarditis (Soto et al.), 332

Peritoneo-venous shunt

- Multiple intracardiac masses complicating peritoneo-venous (LeVeen) shunt (Pietro et al.), 606 (Brief comm.)

Perivalvular infection

- Echographic recognition of perivalvular infection complicating aortic bacterial endocarditis (Come and Riley), 166 (Brief comm.)

Pharmacology

- Pharmacologic differences between beta blockers (Wood), 1070

Phonocardiographic

- Musical murmurs: clinical implications, long-term prognosis, and echo-phonocardiographic features (Sheikh et al.), 377

Physical training

- Influence of beta-adrenergic blockade on the hemodynamic effects of physical training in patients with ischemic heart disease (Vanhees, Fagard, and Amery), 270

Pindolol

- Atenolol, nadolol, and pindolol in angina pectoris on effort: effect of pharmacokinetics (Kostis et al.), 1131

Placebo

- Beneficial effect of nadolol on anxiety-induced disturbances of performance in musicians: a comparison with diazepam and placebo (James and Savage), 1150

Plasma

- Black-white differences in plasma levels of apolipoproteins: the Evans Country Heart Study (Heiss et al.), 807
- Plasma viscosity in ischemic heart disease (Fuchs et al.), 435

Platelet(s)

- Evaluation of effects of catheter sampling for the study of platelet behavior in the pulmonary and coronary circulation (Bugiardini et al.), 255

Plethysmography

- Sustained venous occlusion plethysmography: effects on protein osmotic pressure, intravascular volume, and capillary filtration (Dittrich, Peck, and Slutsky), 548

Pneumococcal endocarditis

- Pneumococcal endocarditis following splenectomy for trauma (Missri and Rohatgi), 622 (Brief comm.)

Polytetrafluoroethylene shunts

- Pulmonary hemodynamics and maintenance of palliation following polytetrafluoroethylene shunts for cyanotic congenital heart disease (Bove et al.), 366

Postmyocardial infarction

- Alteration of type A behavior and reduction in cardiac recurrences in postmyocardial infarction patients (Friedman et al.), 237

Posture, upright

- Electrophysiologic effects of upright posture (Hermiller et al.), 1250

Preexcitation syndrome

- Evaluation of noninvasive tests for identifying patients with preexcitation syndrome at risk of rapid ventricular response (Critelli et al.), 905

Preface(s)

- Preface to NHLBI conference on CHD in black populations (Johnson and Payne), 633
- Preface to Symposium on CHD in black populations (Gillum), 727

Pressure, pericardial

- Pericardial pressure assessed by right atrial pressure: a basis for calculation of left ventricular transmural pressure (Smiseth, Refsum, and Tyberg), 603 (Brief comm.)

Prinzmetal's angina

- Transient changes in left ventricular mechanics during attacks of Prinzmetal angina: A two-dimensional echocardiographic study (Distanto et al.), 440

Programmed electrical stimulation

- Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Propafenone

- Effect of propafenone in patients with stable ventricular arrhythmias (de Souza et al.), 285
- Electrophysiologic effects of propafenone (Seipel and Breithardt), 1587 (Letter); Reply (Karagueuzian, Mandel, and Peter), 1587

Propranolol

- A comparison of propranolol and nadolol pharmacokinetics and clinical effects in thyrotoxicosis (Wilkinson and Burr), 1160
- Comparative effects of oral acebutolol and propranolol at rest and during exercise in ischemic heart disease: double-blind placebo crossover study utilizing radionuclide ventriculography (Kaul et al.), 469
- Comparative effects of propranolol and nadolol on renal blood flow in normal rats and rats with congestive heart failure (Brenner et al.), 1144
- Comparative study of nadolol and propranolol in prophylactic treatment of migraine (Ryan), 1156
- Comparison of kinetic interactions of nadolol and propranolol with cimetidine (Duchin et al.), 1084
- Propranolol versus verapamil for the treatment of essential hypertension (Hornung et al.), 554
- Rest and exercise hemodynamic effects of sequential alpha-1-adrenoceptor (trimazosin) and beta-adrenoceptor (propranolol) antagonism in essential hypertension (Nelson et al.), 124

Prostaglandin E₁

- Prostaglandin E₁ infusion in unstable angina: effects on anginal frequency and cardiac function (Siegel et al.), 863

Prosthesis

- Phonocardiographic findings in disc variance of a Beall mitral prosthesis (Evangelista-Masip et al.), 178 (Brief comm.)

Prosthetic valve

- Abnormal systolic sound associated with mobile prosthetic mitral valve vegetation (Sharkey et al.), 1565 (Brief comm.)
- Echocardiographic findings in prosthetic mitral valve dysfunction (Amann et al.), 1573 (Brief comm.)
- Successful streptokinase therapy of prosthetic aortic valve thrombosis (Draur), 605 (Brief comm.)

Protein phosphorylation/dephosphorylation

- Modulation of high-density lipoprotein: importance of protein phosphorylation/dephosphorylation (Hooper and Scallen), 1393

Proteinuria

- The prognostic significance of proteinuria: the Framingham study (Kannel et al.), 1347

Pulmonary

- High takeoff of the left main coronary artery from the pulmonary trunk: potentially fatal combination with pulmonary trunk banding (Steussy et al.), 619 (Brief comm.)
- Long-term beneficial effect of nifedipine in primary pulmonary hypertension (Lunde and Rasmussen), 415 (Brief comm.)
- Pulmonary and subclavian steal phenomenon following modified Blalock-Tausig shunt (Agarwal et al.), 1567 (Brief comm.)
- Radionuclide-guided balloon occlusion pulmonary cineangiography: an adjunct to pulmonary arteriography (Ferris et al.), 539

Pulmonary artery (arterial)

- Absent right pulmonary artery with atrial septal defect (Kumar et al.), 1037 (Brief comm.)
- Anomalous origin of the left anterior descending coronary artery from the pulmonary artery (Tamer et al.), 341
- Systemic pulmonary arterial fistula diagnosed with aid of radionuclide angiography (Rashkow, Prokop, and Fazzone), 1562 (Brief comm.)
- Visualization of left coronary artery in anomalous origin of left coronary artery from pulmonary artery (Shem-Tov et al.), 621 (Brief comm.)

Pulmonary edema

- Pulmonary density distribution in experimental and clinical cardiogenic pulmonary edema evaluated by computed transmission tomography (Slutsky et al.), 401

Pulmonary embolism. See also Embolism, pulmonary

- Echocardiographic diagnosis of right atrial thromboembolism resulting in massive pulmonary embolization (Goldberg et al.), 1371 (Brief comm.)
- Two-dimensional echocardiography for detection of primary right atrial thrombus in pulmonary embolism (Lim, Hakim, and Bel-Kahn), 1546 (Brief comm.)

Pulmonary fluid volume

- Intravascular and extravascular pulmonary fluid volumes during acute experimental pericardial tamponade (Slutsky et al.), 90
- Intravascular and extravascular pulmonary fluid volumes during chronic experimental left ventricular dysfunction (Slutsky and Olson), 543

Pulmonic regurgitation. See Regurgitation

Pulmonic stenosis. See Stenosis

Pulmonic valve

- Two-dimensional echocardiographic demonstration of flail pulmonic valve due to infective endocarditis (Harasawa et al.), 1552 (Brief comm.)

Q

Q wave(s)

- Disappearance of pathologic Q wave after PTCA in evolving myocardial infarction (Ibba et al.), 1538 (Brief comm.)

QRS changes

- Right precordial ST and QRS changes in the diagnosis of right ventricular infarction (Morgera et al.), 13

QRS score(ing)

- Comparison of QRS score and treadmill performance for assessing ventricular function after myocardial infarction (Gupta and Gupta), 266
- Comparison of a QRS scoring system for estimating acute infarct size with radionuclide left ventriculography (Babbitt et al.), 1426

QT_c interval

Prognostic importance of QT_c interval at discharge after acute myocardial infarction: a multicenter study of 865 patients (Ahnve et al.), 395

Quinidine

Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Intravenous quinidine by intermittent bolus for electrophysiologic studies in patients with ventricular tachycardia (Torres et al.), 1437

Nifedipine-induced alterations in serum quinidine concentrations (Farringer et al.), 1570 (Brief comm.)

R**R wave**

Directional variability in the R wave response during serial exercise testing in patients with coronary artery disease (Voyles, Smith, and Abrams), 983

Race

A note on the biologic concept of race and its application in epidemiologic research (in CHD) (Cooper), 715

Radiation

Radiation-induced coronary artery disease (Simon et al.), 1032 (Brief comm.)

Radionuclide angiograms (angiography)

Limitations of quantitative phase analysis of radionuclide angiograms for detecting coronary artery disease in patients with impaired left ventricular function (Schwaiger et al.), 942

Right ventricular function evaluated by radionuclide angiography in acute myocardial infarction (Hirsowitz, Lakier, and Goldstein), 949

Systemic pulmonary arterial fistula diagnosed with aid of radionuclide angiography (Rashkow, Prokop, and Fazzone), 1562 (Brief comm.)

Radionuclide cineangiography

Radionuclide-guided balloon occlusion pulmonary cineangiography: an adjunct to pulmonary arteriography (Ferris et al.), 539

Radionuclide ventriculography

Comparative effects of oral acebutolol and propranolol at rest and during exercise in ischemic heart disease: double-blind placebo crossover study utilizing radionuclide ventriculography (Kaul et al.), 469

Comparison of a QRS scoring system for estimating acute infarct size with radionuclide ventriculography (Babbitt et al.), 1426

Detection of occult pericardial hemorrhage early after open-heart surgery using technetium-99m red blood cell radionuclide ventriculography (Bateman et al.), 1198

Raynaud's phenomenon

Left ventricular function at rest and during Raynaud's phenomenon in patients with scleroderma (Siegel et al.), 1469

Nifedipine-induced fingertip vasodilation in patients with Raynaud's phenomenon (Creager et al.), 370

Redistribution phenomenon

Limitations of visual assessment of redistribution in thallium images (DiCola et al.), 926

Reentrant tachycardia. See also Tachycardia

Determinants of tachycardia induction using ventricular stimulation in dual pathway atrioventricular nodal reentrant tachycardia (Wu et al.), 44

Regurgitant index

Calculation of pulsed Doppler left ventricular outflow tract regurgitant index for grading severity of aortic regurgitation (Veyrat et al.), 507

Regurgitation

Acute severe pulmonic valve regurgitation: pathophysiology, diagnosis, and treatment (DePace et al.), 567

Calculation of pulsed Doppler left ventricular outflow tract regurgitant index for grading severity of aortic regurgitation (Veyrat et al.), 507

Evaluation of tricuspid regurgitation by blood flow pattern in the hepatic vein using pulsed Doppler technique (Sakai et al.), 516

Regurgitation—Cont'd

Spontaneous change from pulmonic stenosis to pulmonic regurgitation (Wennevold, Jacobsen, and Efsen), 608 (Brief comm.)

Reinfarction

High mortality early reinfarction with first nontransmural myocardial infarction (Hollander et al.), 1412

Renal

Comparative effects of propranolol and nadolol on renal blood flow in normal rats and rats with congestive heart failure (Brenner et al.), 1144

Effects of nadolol treatment on renal and hepatic hemodynamics and function in cirrhotic patients with portal hypertension (Gatta et al.), 1167

Long-term renal hemodynamic effects of nadolol in patients with essential hypertension (Frohlich et al.), 1141

Reperfusion

Rebound recovery of myocardial creatine phosphate with reperfusion after ischemia (Ichihara and Abiko), 1594

Repolarization

T wave polarity related to the repolarization process of epicardial and endocardial ventricular surfaces (Higuchi and Nakaya), 290

Revascularization, myocardial

Results of myocardial revascularization in black males (Sterling et al.), 695

Rhabdomyoma(s)

Neonatal cyanosis caused by cardiac rhabdomyomas (Lababidi et al.), 624 (Brief comm.)

Right atrial thrombus

Echocardiographic diagnosis of mobile right atrial thrombus: early recognition and treatment (Quinn, Plehn, and Liebson), 1548 (Brief comm.)

Two-dimensional echocardiography for detection of primary right atrial thrombus in pulmonary embolism (Lim, Hakim, and Bel-Kahn), 1546 (Brief comm.)

Right coronary artery

Anomalous left coronary artery origin from the right coronary artery (Davia et al.), 165 (Brief comm.)

Right ventricular (RV)

RV dilation following pericardiocentesis (Viquerat), 1586 (Letter); Reply (Armstrong), 1586

Right ventricular function evaluated by radionuclide angiography in acute myocardial infarction (Hirsowitz, Lakier, and Goldstein), 949

Right ventricular metastasis of cervical squamous cell carcinoma (Itoh et al.), 1369 (Brief comm.)

Two-dimensional echocardiographic findings in double-chambered right ventricle (Shimada et al.), 1059 (Brief comm.)

Runners

Scintigraphic determination of ventricular function and coronary perfusion in long-distance runners (Osbacken and Locko), 296

S**Sarcolemmal ATPase. See ATPase****Sarcoma**

Diastolic fluttering of interventricular septum in left atrial sarcoma (Yoshimura et al.), 1050 (Brief comm.)

Scintigraphic(phy)

Scintigraphic determination of ventricular function and coronary perfusion in long-distance runners (Osbacken and Locko), 296

Thallium-201 myocardial scintigraphy and left ventricular function at rest in patients with rest angina pectoris (Hakki et al.), 326

Scintigraphy, thallium. See Thallium-201 scintigraphy**Scleroderma**

Left ventricular function at rest and during Raynaud's phenomenon in patients with scleroderma (Siegel et al.), 1469

Senning technique

Contrast bidimensional echocardiography in the morphologic and functional postoperative evaluation of the Senning technique for complete transposition of the great vessels (Pasalodos et al.), 110

Septal defect, ventricular. See Ventricular septal defect

Serum cholesterol

Total and cardiovascular mortality in relation to cigarette smoking, serum cholesterol concentration, and diastolic blood pressure among black and white males followed up for 5 years (Neaton et al.), 759

Serum lithium. See Lithium, serum

Sex differences

Acute myocardial infarction: sex-related differences in prognosis (Puletti et al.), 63

Shock, anaphylactic. See Anaphylactic shock

Shunt

Pulmonary and subclavian steal phenomenon following modified Blalock-Taussig shunt (Agarwal et al.), 1567 (Brief comm.)

Shunts, polytetrafluoroethylene. See Polytetrafluoroethylene shunts

Sickle cell anemia

Cardiac size and function in children with sickle cell anemia (Balfour et al.), 345

Sinus node

Clinical effects of digoxin on sinus node and atrioventricular node function after pharmacologic autonomic blockade (Alboni et al.), 1255

Sinus node dysfunction during coronary vasospastic angina (Bashour et al.), 1056 (Brief comm.)

Totally automated electrophysiologic testing of sinus node function (Zinner, Gillette, and Combs), 1024

Sinus of Valsalva

M-mode echographic features of ruptured sinus of Valsalva aneurysms (Gherasim et al.), 183 (Brief comm.)

Sleep apnea

Arrhythmogenesis during sleep-induced apnea (Kawakami et al.), 1591 (Letter)

Prevalence of sleep apnea syndrome among patients with essential hypertension (Lavie, Ben-Yosef, and Rubin), 373

Spin-lattice relaxation time

Nuclear magnetic resonance analysis of acute and chronic myocardial infarction in dogs: alterations in spin-lattice relaxation times (Brown et al.), 1292

Splenectomy

Pneumococcal endocarditis following splenectomy for trauma (Missri and Rohatgi), 622 (Brief comm.)

Squamous cell carcinoma

Right ventricular metastasis of cervical squamous cell carcinoma (Itoh et al.), 1369 (Brief comm.)

ST changes

Right precordial ST and QRS changes in the diagnosis of right ventricular infarction (Morgera et al.), 13

ST segment

Reflex heart rate and blood pressure changes during ST segment elevation in patients with variant angina (Araki et al.), 1273

Transient ST segment elevation during anaphylactic shock (Antonelli, Koltun, and Barzilay), 1052 (Brief comm.)

Transtelephonic electrocardiographic monitoring: reliability in detecting the ischemic ST segment response during exercise (Pratt et al.), 967

Staphylococcal infection

Investigations on staphylococcal infection of transvenous endocardial pacemaker electrodes (Peters et al.), 359

Steal, coronary and cerebral

Symptomatic coronary and cerebral steal after internal mammary-coronary bypass (Bashour et al.), 177 (Brief comm.)

Stenosis

Assessment of quantitative indices of arterial stenosis derived from intravenous digital subtraction angiography (Peck et al.), 591

Echocardiographic assessment of congenital mitral stenosis (Vitarelli et al.), 523

Nonimmunologic hydrops fetalis associated with congenital aortic valvular stenosis (Strasburger et al.), 1380 (Brief comm.)

Spontaneous change from pulmonic stenosis to pulmonic regurgitation (Wennevold, Jacobsen, and Efsen), 608 (Brief comm.)

Streptococcus endocarditis

Group A beta-hemolytic streptococcus endocarditis (Ramirez, Naraqi, and McCulley), 1383 (Brief comm.)

Streptokinase

Long-term follow-up after intracoronary streptokinase for myocardial infarction: a randomized, controlled study (Anderson et al.), 1402

Successful streptokinase therapy of prosthetic aortic valve thrombosis (Draur), 605 (Brief comm.)

Stress test(ing)

Mental arithmetic stress testing in patients with coronary artery disease (Specchia et al.), 56

Stroke

International diagnostic criteria for acute myocardial infarction and acute stroke (Gillum et al.), 150

Subclavian steal

Pulmonary and subclavian steal phenomenon following modified Blalock-Taussig shunt (Agarwal et al.), 1567 (Brief comm.)

Subcostal echocardiography

Subcostal echocardiography in ventricular tachycardia (Wren), 1579 (Brief comm.)

Sudden cardiac death

Relationship of specific coronary lesions and regional left ventricular dysfunction to prognosis in survivors of sudden cardiac death (Vlay et al.), 1212

Sudden coronary death. See Death, sudden coronary

Supravalvular stenosing ring

Preoperative echographic diagnosis of supravalvular stenosing ring of the left atrium (Glaser, Yakirevich, and Vidne), 169 (Brief comm.)

Supraventricular tachycardia. See Tachycardia

Surgical treatment of CHD

Issues in the natural history and treatment of coronary heart disease in black populations: surgical treatment (Oberman and Cutter), 688

Swine

Ventriculoatrial conduction in swine during cardiac pacing: animal model for retrograde conduction (Bowman and Hughes), 337

Syphilitic aortitis

Aortic valve prolapse due to syphilitic aortitis (Arvan), 186 (Brief comm.)

Systolic

Abnormal systolic sound associated with mobile prosthetic mitral valve vegetation (Sharkey et al.), 1565 (Brief comm.)

Adhesive pericarditis with unusual systolic click (Linszenmeyer et al.), 1062 (Brief comm.)

Systolic-diastolic murmurs. See Murmurs

T

T wave(s)

T wave polarity related to the repolarization process of epicardial and endocardial ventricular surfaces (Higuchi and Nakaya), 290

Tachyarrhythmias

Beta-adrenergic blockade by nadolol in control of ventricular tachyarrhythmias (Nademanee et al.), 1109

Beta-blocking therapy in atrial and ventricular tachyarrhythmias: experience with nadolol (Coumel, Escoubet, and Attuel), 1098

Tachycardia

Determinants of tachycardia induction using ventricular stimulation in dual pathway atrioventricular nodal reentrant tachycardia (Wu et al.), 44

Ethmozin. I. Effects of intravenous drug administration on paroxysmal supraventricular tachycardia in the ventricular preexcitation syndrome (Chazov, Shugushev, and Rosenshtraukh), 475

Ethmozin. II. Effects of intravenous drug administration on atrioventricular nodal reentrant tachycardia (Chazov, Rosenshtraukh, and Shugushev), 483

Tachycardia, ventricular. See also Ventricular tachycardia

Acute electrophysiologic effects of bethanidine sulfate in patients with ventricular tachycardia or fibrillation (DiMarco et al.), 1244

Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Tachycardia, ventricular—Cont'd

Role of Holter monitoring in patients with recurrent sustained ventricular tachycardia: an electrophysiologic correlation (Ezri, Huang, and Denes), 1229

Traumatic right ventricular tachycardia (Kong, Kertes, and Vohra), 1357 (Brief comm.)

Technetium-99m ventriculography

Detection of occult pericardial hemorrhage early after open-heart surgery using technetium-99m red blood cell radionuclide ventriculography (Bateman et al.), 1198

Thallium-201 scintigraphy

A new approach to quantitation of exercise thallium-201 scintigraphy before and after an intervention: application to define the impact of coronary angioplasty on regional myocardial perfusion (Lim et al.), 917

Can areas of myocardial ischemia be localized by the exercise electrocardiogram? A correlative study with thallium-201 scintigraphy (Abouantoun et al.), 933

Diagnostic impact of thallium scintigraphy and cardiac fluoroscopy when the exercise ECG is strongly positive (Chaitman et al.), 260

Limitations of visual assessment of redistribution in thallium images (DiCola et al.), 926

Quantitative thallium-201 imaging: limitations in detecting pathophysiologically significant obstructive coronary artery disease (Madeira et al.), 1448

Thallium-201 myocardial scintigraphy and left ventricular function at rest in patients with rest angina pectoris (Hakki et al.), 326

Thermal trauma

Decreased contractility and compliance of the left ventricle as complications of thermal trauma (Adams, Baxter, and Izenberg), 1477

3,4-dihydroxyphenylacetic acid

Marked increase of plasma 3,4-dihydroxyphenylacetic acid in congestive heart failure (Mercuro et al.), 1588 (Letter)

Thrombectomy

Thrombectomy for obstructed Björk-Shiley mitral valve prosthesis (Yakirevich et al.), 1582 (Brief comm.)

Thromboembolism, thromboemboli

Echocardiographic diagnosis of right atrial thromboembolism resulting in massive pulmonary embolization (Goldberg et al.), 1371 (Brief comm.)

Postoperative thromboemboli in cystathionine beta-synthase deficiency (Jackson et al.), 627 (Brief comm.)

Thrombolysis, intracoronary

Intracoronary thrombolysis in acute myocardial infarction: clinical course following successful myocardial reperfusion (Urban et al.), 873

Thrombosis

Heparin-related thrombosis after myocardial infarction (Hawkins and Schwartz), 1543 (Brief comm.)

Successful streptokinase therapy of prosthetic aortic valve thrombosis (Draur), 605 (Brief comm.)

Thromboxane A₂

Thromboxane A₂ in acute myocardial infarction (Walinsky et al.), 868

Thrombus

Echocardiographic diagnosis of mobile right atrial thrombus: early recognition and treatment (Quinn, Plehn, and Lieberson), 1548 (Brief comm.)

Myocarditis presenting with "silent" atrium and left atrial thrombus (Wohlgeleitner et al.), 1557 (Brief comm.)

Transient right atrial thrombus resulting in pulmonary embolism detected by two-dimensional echocardiography (Malloy et al.), 1047 (Brief comm.)

Two-dimensional echocardiography for detection of primary right atrial thrombus in pulmonary embolism (Lim, Hakim, and Bel-Kahn), 1546 (Brief comm.)

Thrombus, intracoronary. See Intracoronary thrombus**Thyroid function**

Chronic administration of amiodarone and thyroid function: a follow-up study (Sanmarti et al.), 1262

Thyrotoxicosis

A comparison of propranolol and nadolol pharmacokinetics and clinical effects in thyrotoxicosis (Wilkinson and Burr), 1160

Tomography, computed. See Computed tomography**Transcutaneous nitroglycerin**

Transcutaneous nitroglycerin—ointment or disc? (Abrams), 1597

Transdermal delivery of cardiovascular drugs

Clinical experience with rate-controlled delivery of antihypertensive therapy by a transdermal system (Weber and Drayer), 231

Clinical studies with transdermal nitroglycerin (Hollenberg and Go), 223

Introduction (Goldman), 195

Pharmaceutical considerations of transdermal nitroglycerin delivery: the various approaches (Chien), 207

Pharmacokinetics of nitroglycerin and clonidine delivered by the transdermal route (Shaw), 217

Rationale for rate-controlled drug delivery of cardiovascular drugs by the transdermal route (Breimer), 196

Skin permeability: dermatologic aspects of transdermal drug delivery (Kligman), 200

Transdermal nitroglycerin. See Nitroglycerin**Transfusion, blood**

Hypocalcemic acute myocardial failure secondary to rapid transfusion of citrated blood (Bashour et al.), 1040 (Brief comm.)

Transmural infarction. See Myocardial infarction**Transposition of great arteries**

Contrast bidimensional echocardiography in the morphologic and functional postoperative evaluation of the Senning technique for complete transposition of the great vessels (Pasalodos et al.), 110

Coronary arterial revascularization in an adult with congenitally corrected transposition (Jennings et al.), 598 (Brief comm.)

Echocardiographic evaluation of left ventricular outflow tract obstruction in complete transposition of the great arteries (Vitarelli et al.), 531

Transtelephonic monitoring

Transtelephonic electrocardiographic monitoring: reliability in detecting the ischemic ST segment response during exercise (Pratt et al.), 967

Treadmill

Comparison of QRS score and treadmill performance for assessing ventricular function after myocardial infarction (Gupta and Gupta), 266

Predicting oxygen uptake from treadmill testing in normal subjects and coronary artery disease patients (Roberts et al.), 1454

Tremor

Treatment of resting tremor by beta-adrenergic blockade (Foster et al.), 1173

Tricuspid regurgitation. See Regurgitation**Tricuspid valve**

Tricuspid valve obstruction due to intravenous leiomyomatosis (Gonzalez-Lavin et al.), 1544 (Brief comm.)

Trimazolin

Rest and exercise hemodynamic effects of sequential alpha-1-adrenoceptor (trimazolin) and beta-adrenoceptor (propranolol) antagonism in essential hypertension (Nelson et al.), 124

Two-dimensional echocardiography (2DE)

Detection of thrombosed aortic Björk-Shiley valve by two-dimensional echocardiography (Kinney et al.), 1042 (Brief comm.)

Penetrating cardiac injury evaluated by two-dimensional echocardiography (Choo et al.), 417 (Brief comm.)

Relationship between auscultatory events and structural abnormalities in mitral valve prolapse: a two-dimensional echocardiographic evaluation (Arvan and Tunick), 1298

Transesophageal 2-D echocardiographic feature of flail mitral leaflet due to ruptured chordae tendineae (Schlüter, Kremer, and Hanrath), 609 (Brief comm.)

Transient changes in left ventricular mechanics during attacks of Prinzmetal angina: a two-dimensional echocardiographic study (Distant et al.), 440

Transient right atrial thrombus resulting in pulmonary embolism detected by two-dimensional echocardiography (Malloy et al.), 1047 (Brief comm.)

Two-dimensional echocardiographic demonstration of flail pulmonary valve due to infective endocarditis (Harasawa et al.), 1552 (Brief comm.)

Two-dimensional echocardiographic documentation of accessory chordae tendineae accompanying isolated anterior mitral cleft (Yamamoto et al.), 1554 (Brief comm.)

Two-dimensional echocardiographic findings in double-chambered right ventricle (Shimada et al.), 1059 (Brief comm.)

Two-dimensional echocardiography (2DE)—Cont'd

Two-dimensional echocardiography for detection of primary right atrial thrombus in pulmonary embolism (Lim, Hakim, and Bel-Kahn), 1546 (Brief comm.)

Two-dimensional echographic visualization of free ventricular wall rupture in acute anterior myocardial infarction (Desauter, Halphen, and Haiat), 1360 (Brief comm.)

Unroofed coronary sinus demonstrated by two-dimensional echocardiography (Hamada et al.), 1558 (Brief comm.)

Type A behavior

Alteration of type A behavior and reduction in cardiac recurrences in postmyocardial infarction patients (Friedman et al.), 237

U

U wave(s)

Transient U wave inversion during variant angina (Matsuguchi et al.), 899

Unstable angina

Prostaglandin E₁ infusion in unstable angina: effects on anginal frequency and cardiac function (Siegel et al.), 863

Upright posture

Electrophysiologic effects of upright posture (Hermiller et al.), 1250

V

VA Cooperative Study

Veterans Administration cooperative study on nadolol as monotherapy and in combination with a diuretic (Freis), 1087

Valve(s)

Acute severe pulmonic valve regurgitation: pathophysiology, diagnosis, and treatment (DePace et al.), 567

Aortic valve prolapse due to syphilitic aortitis (Arvan), 186 (Brief comm.)

Detection of thrombosed aortic Björk-Shiley valve by two-dimensional echocardiography (Kinney et al.), 1042 (Brief comm.)

Dura valve endocarditis related to retained fragment of postoperative temporary epicardial pacemaker lead (Mansur et al.), 1049 (Brief comm.)

Echocardiographic findings in prosthetic mitral valve dysfunction (Amann et al.), 1573 (Brief comm.)

Mechanical valve occluder dislodgment (Kabbani et al.), 1374 (Brief comm.)

Relationship between auscultatory events and structural abnormalities in mitral valve prolapse: a two-dimensional echocardiographic evaluation (Arvan and Tunick), 1298

Successful streptokinase therapy of prosthetic aortic valve thrombosis (Draur), 605 (Brief comm.)

Thrombectomy for obstructed Björk-Shiley mitral valve prosthesis (Yakirevich et al.), 1582 (Brief comm.)

Tricuspid valve obstruction due to intravenous leiomyomatosis (Gonzalez-Lavin et al.), 1544 (Brief comm.)

Valvular stenosis

Nonimmunologic hydrops fetalis associated with congenital aortic valvular stenosis (Strasburger et al.), 1380 (Brief comm.)

Variant angina. See also Angina, variant

Transient U wave inversion during variant angina (Matsuguchi et al.), 899

Vasculitis

Persistent endomyocardial biopsy-proven vasculitis following cure of endocarditis (Shanes et al.), 614 (Brief comm.)

Vasodilation

Nifedipine-induced fingertip vasodilation in patients with Raynaud's phenomenon (Creager et al.), 370

Vasospasm

Coronary lesions in neurofibromatosis associated with vasospasm and myocardial infarction (Halper and Factor), 420 (Brief comm.)

Vasospastic angina. See Angina, vasospastic

Vegetation, valve

Abnormal systolic sound associated with mobile prosthetic mitral valve vegetation (Sharkey et al.), 1565 (Brief comm.)

Venous occlusion

Sustained venous occlusion plethysmography: effects on protein osmotic pressure, intravascular volume, and capillary filtration (Dittrich, Peck, and Slutsky), 548

Ventricular

Determinants of tachycardia induction using ventricular stimulation in dual pathway atrioventricular nodal reentrant tachycardia (Wu et al.), 44

Ethmozin. I. Effects of intravenous drug administration on paroxysmal supraventricular tachycardia in the ventricular preexcitation syndrome (Chazov, Shugushev, and Rosenhtraukh), 475

Evaluation of noninvasive tests for identifying patients with preexcitation syndrome at risk of rapid ventricular response (Critelli et al.), 905

Symptoms and associated illness among patients with ventricular pacemakers: implications for pacemaker selection (McGuire and Kaiser), 629

T wave polarity related to the repolarization process of epicardial and endocardial ventricular surfaces (Higuchi and Nakaya), 290

Two-dimensional echographic visualization of free ventricular wall rupture in acute anterior myocardial infarction (Desauter, Halphen, and Haiat), 1360 (Brief comm.)

Ventricular arrhythmias. See also Arrhythmias, ventricular
Mechanisms of ventricular arrhythmias in multivessel coronary disease: the effects of collateral zone ischemia (Kabel et al.), 447

Prognostic implications of complicated ventricular arrhythmias early after hospital discharge in acute myocardial infarction: a serial ambulatory electrocardiography study (Olson et al.), 1221

Ventricular fibrillation

Acute electrophysiologic effects of bethanidine sulfate in patients with ventricular tachycardia or fibrillation (DiMarco et al.), 1244

Ventricular fibrillation during ambulatory electrocardiography (Northcote and Ballantyne), 1560 (Brief comm.)

Vulnerability to ventricular fibrillation in patients with clinically manifest ventricular tachycardia (Kowey et al.), 884

Ventricular function

Comparison of QRS score and treadmill performance for assessing ventricular function after myocardial infarction (Gupta and Gupta), 266

Regional and global left ventricular function during intra-aortic balloon counterpulsation in patients with acute myocardial infarction shock (Weiss et al.), 249

Scintigraphic determination of ventricular function and coronary perfusion in long-distance runners (Osbakken and Locko), 296

Thallium-201 myocardial scintigraphy and left ventricular function at rest in patients with rest angina pectoris (Hakki et al.), 326

Ventricular septal defect (VSD)

Echographic diagnosis of traumatic ventricular septal defect (Goldberg et al.), 416 (Brief comm.)

Natural history of subarterial infundibular ventricular septal defect (Momma et al.), 1312

Ventricular tachyarrhythmias. See Tachyarrhythmias

Ventricular tachycardia

Acute electrophysiologic effects of bethanidine sulfate in patients with ventricular tachycardia or fibrillation (DiMarco et al.), 1244

Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Hyperventilation-induced variant angina with ventricular tachycardia (Hisano et al.), 423 (Brief comm.)

Idiopathic recurrent sustained ventricular tachycardia responsive to verapamil: an ECG-electrophysiologic entity (Belhassen et al.), 1034 (Brief comm.)

Intravenous quinidine by intermittent bolus for electrophysiologic studies in patients with ventricular tachycardia (Torres et al.), 1437

Isolated right ventricular infarction with ventricular tachycardia (Weiss et al.), 425 (Brief comm.)

Role of Holter monitoring in patients with recurrent sustained ventricular tachycardia: an electrophysiologic correlation (Ezri, Huang, and Denes), 1229

Subcostal echocardiography in ventricular tachycardia (Wren), 1579 (Brief comm.)

Ventricular tachycardia—Cont'd

Traumatic right ventricular tachycardia (Kong, Kertes, and Vohra), 1357 (Brief comm.)

Vulnerability to ventricular fibrillation in patients with clinically manifest ventricular tachycardia (Kowey et al.), 884

Ventriculography, radionuclide. See Radionuclide ventriculography

Verapamil

Decreased serum lithium during verapamil therapy (Weinrauch, Belok, and D'Elia), 1378 (Brief comm.)

Disparate unloading efficacy of the calcium channel blockers, verapamil and nifedipine, on the failing hypertensive left ventricle (Guazzi et al.), 116

Effect of bepridil, verapamil, and quinidine in prevention of ventricular tachycardia induced by programmed electrical stimulation in the digitalized dog (Keren et al.), 1236

Idiopathic recurrent sustained ventricular tachycardia responsive to verapamil: an ECG-electrophysiologic entity (Belhassen et al.), 1034 (Brief comm.)

Propranolol versus verapamil for the treatment of essential hypertension (Hornung et al.), 554

Verapamil-digoxin interaction (Zatuchni), 412 (Brief comm.)

W**Wall motion**

Echocardiographic study of left ventricular wall motion in mitral valve prolapse (Doi et al.), 105

Workshop I—Epidemiology

Summary of Workshop I: Working Group on Epidemiology of CHD in black populations (Adams et al.), 699

Workshop II—Risk Factors

Summary of Workshop II: Working Group on Risk Factors of CHD in black populations (Carlson et al.), 703

Workshop III—Socioeconomic and Sociocultural Influences

Summary of Workshop III: Working Group on Socioeconomic and Sociocultural Influences on CHD in black populations (Caldwell et al.), 706

Workshop IV—Natural History

Summary of Workshop IV: Working Group on Natural History, Prevention, and Medical and Surgical Treatment of CHD in black populations (Berenson et al.), 711

X**Xenograft**

Perforation of muscle shelf of right coronary cusp causing acute regurgitation of porcine mitral xenograft (Valente et al.), 180 (Brief comm.)

X-ray

Usefulness of chest x-ray for predicting abnormal left ventricular function after acute myocardial infarction (Madsen et al.), 1431
